This report describes how Ontario’s communities invested and benefited from the federal Gas Tax Fund in 2019. The report is split into two parts. Part I summarizes investments, benefits, and AMO’s approach to the administration of the Fund. [Part II](#) provides detailed financial information, compliance statements, and descriptions of projects supported by the Fund.

Both parts of this report are available at [www.gastaxatwork.ca](http://www.gastaxatwork.ca).

September 30, 2020

Marie-Pier Nassif  
Director, Program Operations Branch  
Infrastructure Canada  
1100 - 180 Kent Street  
Ottawa ON K1P 0B6

Dear Ms. Nassif:

In accordance with Schedule D of the *Administrative Agreement on the Federal Gas Tax Fund* and based on the independent audits described below, I attest that:

- The information submitted in the Financial Report Tables (attached as Appendix B to Part I of AMO's Annual Report on the Fund) is accurate; and
- All federal Gas Tax funds spent – including interest earned on federal Gas Tax funds and proceeds from the disposal of assets financed by the Fund – were expended for the purposes intended.

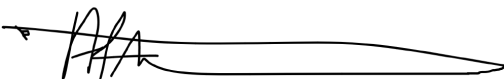

Independent audits supporting this attestation were completed by BDO Canada LLP and Baker Tilly KDN LLP. Reports summarizing their findings are included in Part II of AMO's Annual Report on the Fund.

- Section B reviews AMO's compliance with the terms and conditions specified in Annex B of the *Administrative Agreement*.
- Section C reviews municipalities' compliance with the terms and conditions of their *Municipal Funding Agreements* with AMO.

As per the attached reports, there are no material issues of non-compliance. One municipality was not able to be audited. They will be audited next year for both 2019 and 2020 before any payments are transferred.

Please do not hesitate to contact Chris VanDooren, Program Manager at AMO, at [cvandooren@amo.on.ca](mailto:cvandooren@amo.on.ca) or 416-971-9856 ext. 410 if you require further information regarding AMO's Annual Report on the Fund.

Sincerely,

Afshin Majidi  
Director of Finance and Operations

Attachment

c: Mark Matz, Director General, North/Atlantic/Ontario Program Operations Branch, Infrastructure Canada

## Independent Auditor's Report

---

To the Director, Finance and Operations, the Association of Municipalities of Ontario:

### Opinion

We have audited the Annual Report - Gas Tax Fund of the Association of Municipalities of Ontario (AMO) for the year ended December 31, 2019 and a summary of significant accounting policies.

In our opinion, the accompanying Annual Report - Gas Tax Fund is prepared, in all material respects, in accordance with the reporting provisions of section 1.1 of Schedule D of Annex B of the Administrative Agreement on the Federal Gas Tax Fund between the Association of Municipalities of Ontario (AMO), the Government of Canada, the Government of Ontario and the City of Toronto (the Agreement).

### Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Annual Report - Gas Tax Fund* section of our report. We are independent of AMO in accordance with the ethical requirements that are relevant to our audit of the Annual Report - Gas Tax Fund in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Information

Management is responsible for the other information. The other information comprises:

- The information, other than the Annual Report - Gas Tax Fund and our auditor's report thereon, included in The Federal Gas Tax Fund 2019 Annual Report, and
- The information included in the Schedule - Transfer to Ultimate Recipients and the Schedule - Cumulative Balance Adjustments by Ultimate Recipients.

In connection with our audit of the Annual Report - Gas Tax Fund, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained The Federal Gas Tax Fund 2019 Annual Report, the Schedule - Transfer to Ultimate Recipients and the Schedule - Cumulative Balance Adjustments by Ultimate Recipients prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

### **Emphasis of Matter - Basis of Accounting**

We draw attention to Note 2 to the Annual Report - Gas Tax Fund, which describes the basis of accounting. The Annual Report - Gas Tax Fund is prepared to assist AMO to meet the reporting requirements of the Government of Canada referred to above. As a result, the Annual Report - Gas Tax Fund may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

### **Other Matters**

The Annual Report - Gas Tax Fund of the Association of Municipalities of Ontario (AMO) for the year ended December 31, 2018 was audited by another auditor who expressed an unmodified opinion on that Annual Report - Gas Tax Fund on September 4, 2019.

### **Responsibilities of Management and Those Charged with Governance for the Annual Report - Gas Tax Fund**

Management is responsible for the preparation of the Annual Report - Gas Tax Fund in accordance with the Agreement; this includes determining that the basis of accounting is an acceptable basis for the preparation of the Annual Report - Gas Tax Fund in the circumstances, and for such internal control as management determines is necessary to enable the preparation of the Annual Report - Gas Tax Fund that is free from material misstatement, whether due to fraud or error.

Those charged with governance are responsible for overseeing AMO's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Annual Report - Gas Tax Fund**

Our objectives are to obtain reasonable assurance about whether the Annual Report - Gas Tax Fund as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Annual Report - Gas Tax Fund.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Annual Report - Gas Tax Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of AMO's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, and related disclosures made by management.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Transfer from reserves	8,794,577	8,794,577
Balance of Federal Gas Tax funds held by AMO, end of the year	\$ 2,325,181	\$ 2,325,181

---

## Association of Municipalities of Ontario Note to the Annual Report - Gas Tax Fund

For the year ended December 31, 2019

---

### Note 1 - Background Information

On June 17, 2005, the Government of Canada (“Canada”), the Province of Ontario (“Ontario”), the Association of Municipalities of Ontario (AMO) and the City of Toronto (“Toronto”) signed the Agreement for the Transfer of Federal Gas Tax Revenue under the New Deal for Cities and Communities (the “Original Agreement”) setting out new revenue sharing arrangements for federal gas tax revenues for investment in environmentally sustainable municipal infrastructure. The Original Agreement resulted in \$1.453 billion flowing to all Ontario municipalities (excluding Toronto) for the period 2005 to 2009. On September 3, 2008, an amending agreement was signed for the administration of an additional \$2.361 billion flowing to all Ontario municipalities (excluding Toronto) for the period 2010 to 2014.

In March 2014, AMO, Canada, Ontario and Toronto signed a new Administrative Agreement (the “Agreement”). The Agreement is for 10 years of which \$8.053 billion will flow to municipalities (excluding Toronto).

With the Agreement, Canada has expanded the number of eligible project categories and reset the cumulative values of the existing eligible project categories to zero effective January 1, 2014 to highlight the program’s new focus on the national objectives of productivity and economic growth, clean environment and strong cities and communities.

AMO administers the funding on behalf of Canada for all municipalities except for Toronto. AMO receives 0.5% of the amounts received from Canada to administer the funds.

In 2019, there was a one-time doubling of the funds by the Government of Canada. Also, in 2019 AMO distributed \$12,044,284 in surplus administration fees. This amount was made up of the \$3,249,705 administration fee AMO did not take from the doubling of the funds in 2019, and \$8,794,579 from reserves. Additionally, the AMO Board established a \$3.5 million reserve fund, per the Business Plan that was approved by Canada in early 2019.

AMO received \$533 less from Canada in 2019 due to a calculation error. The \$533 amount was added to the amount received in 2020.

---

## **Association of Municipalities of Ontario Note to the Annual Report - Gas Tax Fund**

**For the year ended December 31, 2019**

---

### **Note 2 - Summary of Significant Accounting Policies**

#### **Basis of Accounting**

The Annual Report - Gas Tax Fund has been prepared in accordance with the reporting provisions of section 1.1 of Schedule D of Annex B of the Administrative Agreement on the Federal Gas Tax Fund between the Association of Municipalities of Ontario (AMO), the Government of Canada, the Government of Ontario and the City of Toronto (the Agreement) using the recognition and measurement principles of Canadian accounting standards for not-for-profit organizations, which is one of the financial reporting frameworks in Canadian generally accepted accounting principles.

However, due to the nature of the Agreement, funding revenue is recorded as received.

The Annual Report - Gas Tax Fund includes the accounts of AMO related to the Agreement only and, therefore, does not include all of the revenues and expenditures of AMO.

September 17, 2020

Chris VanDooren  
Manager - Gas Tax Implementation  
Association of Municipalities of Ontario  
200 University Avenue, Suite 800  
Toronto, Ontario M5H 3C6

Dear Mr. VanDooren

During the course of our engagement to perform the specified procedures as noted in Appendix D, for the year ended December 31, 2019 with respect to the Municipal Funding Agreement for the Transfer of Federal Gas Tax Funds between the Association of Municipalities of Ontario (AMO) and the selected Municipalities dated April 1, 2014 (the Agreement), we identified matters which may be of interest to management. These procedures do not constitute an audit of the Municipalities' compliance with the Agreement and they are not designed to identify matters that may be of interest to management in discharging its responsibilities. Accordingly, these procedures would not usually identify all such matters.

### **Samples**

We selected a sample of 44 municipalities, listed in Appendix A-1, based on the selection criteria provided by AMO (Appendix A-2). As BDO Canada LLP is the auditor for 8 of the selected municipalities, AMO engaged a different firm to perform the specified procedures as noted in Appendix D for these municipalities.

The appropriateness of the selection methodology and the adequacy of the sample size is the responsibility of AMO.

### **Procedures Performed**

As specifically agreed with AMO, we performed the specified procedures described in Appendix D.

### **Results**

We issued reports summarizing our findings for each of the 36 specified municipalities. Reports were sent to AMO independently of this document. In Appendix B, we have summarized the exceptions identified. In Appendix C, we have identified the municipalities where exceptions were noted. One municipality did not provide the information that we requested to complete the specified procedures described in Appendix D.

### **2019 Risk Management Questionnaires**

We performed the specified procedures described in Appendix E-1 to review municipal response to the risk management questionnaire (Appendix E-2). In Appendix F, we have provided a summary of the Questionnaires and the exceptions identified.

## Recommendations

Based on the results of the procedures that we performed, we are making various recommendations as described in Appendix G.

This communication is prepared solely for the information of management and is not intended for any other purposes. We accept no responsibility to a third party who uses this communication.

We shall be pleased to discuss with you further any matters mentioned in this report at your convenience.

Yours truly,

*Giselle Bodkin*

September 10, 2020

Chris VanDooren  
Manager – Gas Tax Implementation  
Association of Municipalities of Ontario  
200 University Ave. Suite 801  
Toronto, ON  
M5H 3C6

Dear Mr. VanDooren:

We are pleased to report that we have now completed the specified procedures for the year ended December 31, 2019 that the Association of Municipalities of Ontario (“AMO”) requested us to perform with respect to the Municipal Funding Agreement for the Transfer of Federal Gas Tax Funds between the specific municipalities and the municipalities of Ontario (excluding City of Toronto) (“Funding Agreement”) as of April 1, 2014. AMO requested us to perform these procedures in order to comply with the terms and conditions of the Administrative Agreement on the Federal Gas Tax Fund dated March 4, 2014 between AMO and the Province of Ontario and the Government of Canada (“Administrative Agreement”).

The summary of work done is as follows:

### **Sample size**

A sample of 44 municipalities, listed in Appendix A-1, based on the selection criteria provided by AMO (Appendix A-2) from a population of 443 municipalities (excluding City of Toronto) of Ontario was selected. As BDO Canada LLP is the auditor for 8 of the selected municipalities, it was agreed with AMO that the compliance work for these municipalities would be performed by Baker Tilly KDN LLP. For these 8 selected municipalities, we have performed procedures to review compliance for the 2019 calendar year.

The appropriateness of the selection methodology and the adequacy the sample size is the responsibility of AMO.

### **Procedures performed**

We performed the procedures described in Appendix D. These procedures were determined by AMO.

ASSURANCE • TAX • ADVISORY

*Baker Tilly KDN LLP is a member of Baker Tilly Canada Cooperative, which is a member of the global network of Baker Tilly International Limited. All members of Baker Tilly Canada Cooperative and Baker Tilly International Limited are separate and independent legal entities.*

**Findings**

We have issued our reports for each of the 8 selected municipalities. These reports have been sent independently of this document. Our reports indicate the procedures performed and whether or not there were any exceptions noted as a result of applying the procedures described in Appendix D. Appendices B and C identify the results of these procedures.

**2019 Risk Management Questionnaire**

AMO had asked each municipality to complete the “2019 Risk Management Questionnaire”, which listed 10 questions on financial policies and standard operating procedures (SOP) and required the municipalities to answer “yes” only if they had the policy or the SOP in writing.

AMO requested that we verify that a written SOP existed for each question which had been answered “yes”. The assessment and implementation of the SOP is the responsibility of the municipalities.

The results are included in Appendix F.

**Conclusion**

We would like to express our appreciation for the cooperation and assistance received from you and your team during the course of our work.

If you have any particular comments or concerns, please do not hesitate to contact me.

Yours sincerely,

*Baker Tilly KDN LLP*

<b>Total</b>	<b>44</b>

\* denotes municipalities audited by Baker Tilly KDN LLP

**Background**

AMO audits a sample of municipalities each year to monitor compliance with the [Municipal Funding Agreement](#) (MFA). The sample is selected in accordance with the sampling method below.

**Sample Size**

Auditors must select 44 municipalities for inclusion in the sample. AMO may, at its discretion, expand the sample by adding municipalities that were found to have material exceptions in previous years' audits.

**Selection Criteria**

Selected municipalities must be drawn at random. All municipalities receiving federal Gas Tax funds through AMO are eligible for selection – except for those that were audited in or after 2014.

**Geographic Distribution**

The geographic distribution of municipalities in the sample should roughly reflect the geographic distribution of municipalities in Ontario. See the table below for guidance.

<b>Region</b>	<b>Number of Municipalities</b>	<b>Percent of Municipalities</b>	<b>Approximate Number in Sample</b>
Central	54	12.22%	5
Eastern	109	24.66%	11
Greater Toronto Area	28	6.33%	3
North Eastern	109	24.66%	11
North Western	34	7.69%	3
South Western	108	24.43%	11
<b>Ontario</b>	<b>442</b>	<b>100.00%</b>	<b>44</b>

**Sampling Method**

Auditors should use stratified random sampling to ensure that regions of Ontario are appropriately represented in the sample. AMO will provide auditors will all information required to generate a stratified random sample.

<b>Section</b>	<b>Anticipated Municipal Action Required under the Agreement</b>	<b>Exceptions</b>
3.2	Be aware of the base amount.	None
3.3	Award contracts in accordance with the municipal procurement policy.	1
4.2	Complete Eligible Projects in accordance with Schedules B and C of the Agreement.	None
5.1	Apply funds to eligible expenditures as outlined in Schedule C of the Agreement.	None
5.4	Make records readily available.	None
5.5	Retain records in accordance with the municipal records retention policy.	3
6.2	Pass a by-law authorizing the transfer of funds, provide a copy of the by-law to AMO, and accurately report the transfer in the annual report (if applicable).	None
6.3	Pass a by-law authorizing the transfer of funds, provide a copy of the by-law to AMO, and accurately report the transfer in the annual report (if applicable).	None
6.6	Record funds in a segregated reserve fund.	4
	Deposit federal Gas Tax funds in an interest-bearing account or investment.	1
	Report interest earned on unused funds to AMO.	None

\* Municipalities audited by Baker Tilly KDN LLP. All other municipalities were audited by BDO Canada LLP.

♦ Johnson Township could not be audited in 2020. It will be audited in 2021 for both the 2019 and 2020 reporting years.

**Notes**

- A Federal Gas Tax funds are not deposited and maintained in an interest-bearing account or investment.
- B The Recipient does not have a records retention by-law.
- C The Recipient has not recorded the federal Gas Tax funds in a segregated reserve fund.
- D Balances as per the general ledger differ from those reported to AMO in the annual report.
- E The tendering process was not used. This is not in accordance with the Recipient's procurement policy.

Per Funding Agreement	Specified Audit Procedure
<b>3.1 Communications</b>	
<p>The Recipient will comply with requirements outlined in Schedule E:</p> <ul style="list-style-type: none"> <li>a) Providing upfront project information on an annual basis for communications purposes;</li> <li>b) Including Canada in local project communications;</li> <li>c) Installing federal project signs.</li> </ul>	<p>None.</p> <p>In a letter sent to AMO on January 29, 2014, Infrastructure Canada advised that monitoring and implementation of the communications protocol does not need to be subject to a compliance audit.</p>
<b>3.2 Incrementality</b>	
<p>Any Funds that the Recipient may receive from Canada are not intended to replace or displace existing sources of funding for the Recipient's tangible capital assets. The Recipient will ensure that its total annual expenditures on tangible capital assets over the life of the Agreement, on average, will not be less than the Base Amount.</p>	<p>Ask the Recipient's staff (i.e., the person responsible for submitting the Recipient's annual report) if the Recipient is aware of the base amount.</p> <p>While municipalities strive to invest federal Gas Tax funds incrementally, there are several reasonable explanations for non-compliance. Population decline, for example, might reduce the demand for – or ability to pay for – infrastructure. AMO therefore reports compliance at the aggregate municipal level. AMO additionally investigates municipalities that have consistently struggled to invest incrementally since 2014 – and that are therefore at risk of non-compliance – to better understand barriers to investment.</p>
<b>3.3 Contracts</b>	
<p>The Recipient will award and manage all Contracts in accordance with its relevant policies and procedures and, if applicable, in accordance with the Agreement on Internal Trade and applicable international trade agreements, and all other applicable laws.</p> <ul style="list-style-type: none"> <li>a) The Recipient will ensure any of its Contracts for the supply of services or materials to implement its responsibilities under this Agreement will be awarded in a way that is transparent, competitive, consistent with value for money principles and pursuant to its adopted procurement policy.</li> </ul>	<p>Review the Recipient's Procurement Policy/By-law.</p> <p>Verify that the summary of tender results submitted to Council is in accordance with the Procurement Policy/By-law for all contracts pertaining to the federal Gas Tax Fund that were awarded during the year.</p>
<b>4.1 Eligible Project Categories</b>	
<p>Eligible Projects include investments in Infrastructure for its construction, renewal or material enhancement in the eligible categories specifically described in Schedule B &amp; C.</p>	<p>None. No action is required by the Recipient.</p>

Per Funding Agreement	Specified Audit Procedure
-----------------------	---------------------------

**4.2 Recipient Fully Responsible**

The Recipient is fully responsible for the completion of each Eligible Project in accordance with Schedule B and Schedule C.	Ensure that the description and nature of each project that received federal Gas Tax funding during the year is consistent with Schedules B and C of the <i>Municipal Funding Agreement</i> .
--	---

**5.1 Eligible Expenditures**

Schedule C sets out specific requirements for Eligible and Ineligible Expenditures.	Review all invoices, progress billing certificates, and documents listed in the costing sheet provided by the Recipient that pertain to projects financed by the federal Gas Tax Fund year. For all amounts in excess of 1% of the amount received during the year, verify (by agreeing the details to invoices, progress billings and certificates of completion) that all significant expenditures are in accordance with Schedule C of the <i>Municipal Funding Agreement</i> .
---	--

**5.2 Discretion of Canada**

Subject to Section 5.1, the eligibility of any items not listed in Schedule B and/or Schedule C to this Agreement is solely at the discretion of Canada.	None. No action is required by the Recipient.
--	---

**5.3 Unspent Funds**

Any Unspent Funds, and any interest earned thereon, will be subject to the terms and conditions of this Agreement, and will no longer be governed by the terms and conditions of the First Agreement.	None. No action is required by the Recipient.
---	---

**5.4 Reasonable Access**

The Recipient shall allow AMO and Canada reasonable and timely access to all documentation, records and accounts and those of their respective agents or Third Parties related to the receipt, deposit and use of Funds and Unspent Funds, and any interest earned thereon, and all other relevant information and documentation requested by AMO or Canada their respective designated representatives for the purposes of audit, evaluation, and ensuring compliance with this Agreement.	Confirm that the Recipient provided reasonable access to all materials required for the compliance audit. Note any instances in which reasonable access was not provided.
---	---

Per Funding Agreement	Specified Audit Procedure
-----------------------	---------------------------

**5.5 Retention of Receipts**

<p>The Recipient will keep proper and accurate accounts and records of all Eligible Projects including invoices and receipts for Eligible Expenditures in accordance with the Recipient’s municipal records retention by-law and, upon reasonable notice, make them available to AMO and Canada.</p>	<p>Review the Recipient’s current records retention by-law. Confirm with the Recipient’s staff that documents and records pertaining to projects financed by the Fund are being retained in accordance with the by-law.</p>
--	---

**6.1 Allocation of Funds**

<p>AMO will allocate and transfer Funds that Canada may make available for Ontario Municipalities to Recipients on a per capita basis with allocations made on a 50:50 basis to upper-tier and lower-tier Municipalities, where they exist.</p>	<p>None. No action is required by the Recipient.</p>
---	--

**6.2 Transfer of Funds to a Municipality**

<p>Where a Recipient decides to allocate and transfer Funds to another Municipality (the “Transferee Municipality”):</p> <ol style="list-style-type: none"> <li>a) The allocation and transfer shall be authorized by By-law. The Transfer By-law shall be passed by the Recipient’s council and submitted to AMO as soon thereafter as practicable. The Transfer By-law shall identify the Transferee Municipality and the amount of Funds the Transferee Municipality is to receive for the Municipal Fiscal Year specified in the Transfer By-law.</li> <li>b) The Recipient is still required to submit an Annual Report in accordance with Sections 7.1 (a), (c) and (f) hereof with respect to the Funds transferred.</li> <li>c) No transfer of Funds pursuant to this Section 6.2 shall be effected unless and until the Transferee Municipality has either (i) entered into an agreement with AMO on substantially the same terms as this Agreement, or (ii) executed and delivered to AMO a written undertaking to assume all of the Recipient’s obligations under this Agreement with respect to the Funds transferred; in a form satisfactory to AMO.</li> </ol>	<p>Ask the Recipient’s staff if federal Gas Tax funds were transferred to other municipalities during the year. If so, verify that:</p> <ul style="list-style-type: none"> <li>• The Recipient passed a by-law that authorizes the transfer, identifies the Transferee(s), and states the amount of federal Gas Tax funds to be transferred;</li> <li>• A copy of the by-law was submitted to AMO (by reviewing correspondence with AMO);</li> <li>• The transfer date is after the date that the Transferee(s) entered into a Municipal Funding Agreement with AMO (or an agreement on substantially the same terms), or executed and delivered to AMO a written undertaking to assume all of the Recipient’s obligations under the <i>Municipal Funding Agreement</i> with respect to the federal Gas Tax funds transferred in a form satisfactory to AMO; and</li> <li>• The amount of federal Gas Tax funds transferred is correctly stated in the annual report.</li> </ul>
--	--

Per Funding Agreement	Specified Audit Procedure
-----------------------	---------------------------

**6.3 Transfer of Funds to a Non-Municipal Entity**

Where a Recipient decides to support an Eligible Project undertaken by an Eligible Recipient that is not a Municipality:

- a) The provision of such support shall be authorized by a by-law (a "Non-municipal Transfer By-law"). The Non-municipal Transfer By-law shall be passed by the Recipient's council and submitted to AMO as soon as practicable thereafter. The Non-municipal Transfer By-law shall identify the Eligible Recipient, and the amount of Funds the Eligible Recipient is to receive for that Eligible Project.
- b) The Recipient shall continue to be bound by all of the provisions of this Agreement notwithstanding any such transfer.
- c) No transfer of Funds pursuant to this Section 6.3 shall be effected unless and until the non-municipal entity receiving the Funds has executed and delivered to AMO a written undertaking to assume all of the Recipient's obligations under this Agreement with respect to the Funds transferred, in a form satisfactory to AMO.

Ask the Recipient's staff if federal Gas Tax funds were transferred during the year to support Eligible Projects undertaken by non-municipal entities. If so, verify that:

- The Recipient passed a by-law that authorizes the transfer, identifies the Transferee(s), and states the amount of federal Gas Tax funds to be transferred;
- A copy of the by-law was submitted to AMO (by reviewing correspondence with AMO);
- The transfer date is after the date that AMO notified the Recipient that it had received a written undertaking in a suitable form from the non-municipal entity to assume all of the Recipient's obligations under the *Municipal Funding Agreement* with respect to the federal Gas Tax funds transferred (by reviewing correspondence with AMO); and
- The amount of federal Gas Tax funds transferred is correctly stated in the annual report.

**6.4 Use of Funds**

The Recipient acknowledges and agrees the Funds are intended for and shall be used only for Eligible Expenditures in respect of Eligible Projects.

None. The Recipient acknowledged and agreed to this condition by signing the Municipal Funding Agreement.

**6.5 Schedule of payout of Funds**

The Recipient agrees that all Funds are to be transferred by AMO to the Recipient as set out in Schedule A. Subject to Section 6.14, AMO will transfer Funds twice yearly, on or before the dates agreed upon by Canada and AMO, and on the basis set out in Schedule A.

None. No action is required by the Recipient.

Per Funding Agreement	Specified Audit Procedure
-----------------------	---------------------------

**6.6 Use of Funds**

<p>The Recipient will deposit the Funds in a dedicated reserve fund or other separate distinct interest bearing account or invest the Funds through the One Investment Program or any other eligible investment permitted by the Ontario Municipal Act, 2001 and shall retain the Funds in such reserve fund, account or investment until the Funds are expended or transferred in accordance with this Agreement. The Recipient shall ensure that:</p> <ul style="list-style-type: none"> <li>a) Any investment of unexpended Funds will be in accordance with Ontario law and the Recipient’s investment policy; and</li> <li>b) Any interest earned on Funds will only be applied to Eligible Expenditures for Eligible Projects, more specifically on the basis set out in Schedule B &amp; C.</li> </ul>	<p>Verify, by reviewing the general ledger, that federal Gas Tax funds are in a segregated reserve fund.</p> <p>Confirm, by asking the Recipient’s staff, that federal Gas Tax funds are deposited and maintained in an interest-bearing account or investment.</p> <p>Determine, using the formula and interest calculator provided by AMO, the reasonability of the interest earned by re-computing the interest earned on the un-expended amount.</p>
---	--

**6.7 Funds Advanced**

<p>Funds transferred by AMO to the Recipient shall be expended by the Recipient in respect of Eligible Expenditures within five (5) years after the end of the year in which Funds were received. Unexpended Funds shall not be retained beyond such five (5) year period. AMO reserves the right to declare that Unexpended Funds after five (5) years become a debt to Canada which the Recipient will reimburse forthwith on demand to AMO for transmission to Canada.</p>	<p>None. AMO monitors compliance annually.</p>
---	--

**6.8 Expenditure of Funds**

<p>The Recipient shall expend all Funds by December 31, 2028.</p>	<p>None. Compliance with this clause cannot be assessed until 2023.</p>
---	---

**6.9 GST & HST**

<p>The use of Funds is based on the net amount of goods and services tax or harmonized sales tax to be paid by the Recipient net of any applicable tax rebates.</p>	<p>For the items identified in Section 5.1 above, review the invoices pertaining to the projects financed by the federal Gas Tax Fund and verify that the expenditures applied against federal Gas Tax funds during the year included HST less any applicable tax rebates.</p>
---	--

Per Funding Agreement	Specified Audit Procedure
<b>6.10 Limit on Canada's Financial Commitments</b>	
The Recipient may use Funds to pay up to one hundred percent (100%) of Eligible Expenditures of an Eligible Project.	None. No audit verification work is required.
<b>6.11 Federal Funds</b>	
The Recipient agrees that any Funds received will be treated as federal funds for the purpose of other federal infrastructure programs.	None. No audit verification work is required.
<b>6.12 Stacking</b>	
If the Recipient is receiving federal funds under other federal infrastructure programs in respect of an Eligible Project to which the Recipient wishes to apply Funds, the maximum federal contribution limitation set out in any other federal infrastructure program agreement made in respect of that Eligible Project shall continue to apply.	Ask if any projects financed by the Fund during the year were also financed by other federal grant programs. If so, review the funding limitations set out in that funding agreement and verify that the limitations have been followed.
<b>6.13 Withholding Payment</b>	
AMO may withhold payment of Funds where the Recipient is in default of compliance with any provisions of this Agreement.	None. No action is required by the Recipient.
<b>6.14 Insufficient funds provided by Canada</b>	
Notwithstanding Section 2.4, if Canada does not provide sufficient funds to continue the Funds for any Municipal Fiscal Year during which this Agreement is in effect, AMO may terminate this Agreement.	None. No action is required by the Recipient.

Per Funding Agreement	Specified Audit Procedure
-----------------------	---------------------------

**7.1 Annual Report**

<p>The Recipient shall report in the form in Schedule D due by March 31st following each Municipal Fiscal Year on:</p> <ul style="list-style-type: none"> <li>a) The amounts received from AMO under this Agreement in respect of the previous Municipal Fiscal Year;</li> <li>b) The amounts received from another Municipality;</li> <li>c) The amounts transferred to another Municipality;</li> <li>d) Amounts paid by the Recipient in aggregate for Eligible Projects;</li> <li>e) Amounts held at year end by the Recipient in aggregate, including interest, to pay for Eligible Projects;</li> <li>f) Indicate in a narrative the progress that the Recipient has made in meeting its commitments and contributions; and,</li> <li>g) A listing of all Eligible Projects that have been funded, indicating the location, investment category, project description, amount of Funds and total project cost.</li> </ul>	<p>Confirm that information in the Annual Report agrees with information in the GL.</p>
--	---

**7.2 Outcomes Report**

<p>The Recipient shall account in writing for outcomes achieved. Specifically, an Outcomes Report shall describe, in a manner to be provided by AMO, the degree to which investments in each project are supporting progress towards achieving: beneficial impacts on communities of completed projects; and enhanced impact of Funds as a predictable source of funding.</p>	<p>None.</p> <p>Municipalities report outcomes for each project that completes construction during the year. Submission of these reports to AMO is required to submit the annual report.</p>
---	--

**8.1 Asset Management Plan**

<p>The Recipient will develop and implement an Asset Management Plan prior to December 31, 2016.</p>	<p>None.</p> <p>All municipalities have submitted copies of their asset management plans to AMO.</p>
--	--

Per Funding Agreement	Specified Audit Procedure
-----------------------	---------------------------

**8.2 Outcomes**

On a date and in a manner to be determined by AMO, the Recipient will provide a report to AMO demonstrating that Asset Management Plans are being used to guide infrastructure planning and investment decisions and how Funds are being used to address priority projects.	None.  AMO asks municipalities about their efforts to improve asset management practices in an annual questionnaire. Completion of this questionnaire is required to submit the annual report.
---	--

**9.1 Accounting Principles**

All accounting terms not otherwise defined herein have the meanings assigned to them; all calculations will be made and all financial data to be submitted will be prepared in accordance with generally accepted accounting principles (GAAP) in effect in Ontario. GAAP will include, without limitation, those principles approved or recommended for local governments from time to time by the Public Sector Accounting Board or the Canadian Institute of Chartered Accountants or any successor institute, applied on a consistent basis.	Verify, by reviewing the most recent annual audited financial statements, that they have been prepared in accordance with Public Sector Accounting standards.  Scan the auditors' report for any qualifications for non-compliance with Public Sector Accounting standards.
--	---

**9.2 Separate Records**

The Recipient shall maintain separate records and documentation for the Funds and keep all records including invoices, statements, receipts and vouchers in respect of Funds expended on Eligible Projects in accordance with the Recipient's municipal records retention by-law. Upon reasonable notice, the Recipient shall submit all records and documentation relating to the Funds for inspection or audit.	Obtain a copy of the Recipient's By-law for municipal records retention and verify compliance with the By-law by examining the general ledger and documentation for the federal Gas Tax funds maintained and retained.
---	--

**9.3 External Auditor**

AMO and/or Canada may request, upon written notification, an audit of Eligible Project or an Annual Report. AMO shall retain an external auditor to carry out an audit of the material referred to in Sections 5.4 and 5.5 of this Agreement. AMO shall ensure that any auditor who conducts an audit pursuant to this Section of this Agreement or otherwise, provides a copy of the audit report to the Recipient.	None. No action is required by the Recipient.
--	---

---

<b>Per Funding Agreement</b>	<b>Specified Audit Procedure</b>
------------------------------	----------------------------------

---

**10.1 Insurance**

The Recipient shall put in effect and maintain in full force and effect or cause to be put into effect and maintained for the term of this Agreement all the necessary insurance with respect to each Eligible Project, including any Eligible Projects with respect to which the Recipient has transferred Funds pursuant to Section 6 of this Agreement, that would be considered appropriate for a prudent Municipality undertaking Eligible Projects, including, where appropriate and without limitation, property, construction and liability insurance, which insurance coverage shall identify Canada and AMO as additional insureds for the purposes of the Eligible Projects.

Verify, by reviewing the Insurance Certificates, that the Insurance Certificates for the fiscal year:

- a) Confirm general liability insurance coverage for the Municipal Funding Agreement; and
- b) List AMO and Canada as additional insured.

**10.2 Certificates of Insurance**

Throughout the term of this Agreement, the Recipient shall provide AMO with a valid certificate of insurance that confirms compliance with the requirements of Section 10.1. No Funds shall be expended or transferred pursuant to this Agreement until such certificate has been delivered.

Verify, by reviewing correspondence with AMO, that the insurance certificate has been submitted to AMO.

**10.3 AMO Not liable**

In no event shall Canada or AMO be liable for: (a) any bodily injury, death or property damages to the Recipient, its employees, agents or consultants or for any claim, demand or action by any Third Party against the Recipient, its employees, agents or consultants, arising out of or in any way related to this Agreement; or (b) any incidental, indirect, special or consequential damages, or any loss of use, revenue or profit to the Recipient, its employees, agents or consultants arising out of any or in any way related to this Agreement.

None. The Recipient acknowledged and agreed to this condition by signing the Municipal Funding Agreement.

<b>Per Funding Agreement</b>	<b>Specified Audit Procedure</b>
------------------------------	----------------------------------

**10.4 Recipient to Compensate Canada**

The Recipient will ensure that it will not, at any time, hold Canada, its officers, servants, employees or agents responsible for any claims or losses of any kind that the Recipient, Third Parties or any other person or entity may suffer in relation to any matter related to the Funds or an Eligible Project and that the Recipient will, at all times, compensate Canada, its officers, servants, employees and agents for any claims or losses of any kind that any of them may suffer in relation to any matter related to the Funds or an Eligible Project. The Recipient's obligation to compensate as set out in this section does not apply to the extent to which such claims or losses relate to the negligence of an officer, servant, employee, or agent of Canada in the performance of his or her duties.

None. The Recipient acknowledged and agreed to this condition by signing the Municipal Funding Agreement.

**10.5 Recipient to Indemnify AMO**

The Recipient hereby agrees to indemnify and hold harmless AMO, its officers, servants, employees or agents (each of which is called an "Indemnatee"), from and against all claims, losses, damages, liabilities and related expenses including the fees, charges and disbursements of any counsel for any Indemnatee incurred by any Indemnatee or asserted against any Indemnatee by whomsoever brought or prosecuted in any manner based upon, or occasioned by, any injury to persons, damage to or loss or destruction of property, economic loss or infringement of rights caused by or arising directly or indirectly from: (a) the Funds; (b) the Recipient's Eligible Projects, including the design, construction, operation, maintenance and repair of any part or all of the Eligible Projects; (c) the performance of this Agreement or the breach of any term or condition of this Agreement by the Recipient, its officers, servants, employees and agents, or by a Third Party, its officers, servants, employees, or agents; and (d) any omission or other willful or negligent act of the Recipient or Third Party and their respective officers, servants, employees or agents.

None. The Recipient acknowledged and agreed to this condition by signing the Municipal Funding Agreement.

<b>Per Funding Agreement</b>	<b>Specified Audit Procedure</b>
<b>11.1 Reinvestment</b>  The Recipient will invest into Eligible Projects, any revenue that is generated from the sale, lease, encumbrance or other disposal of an asset resulting from an Eligible Project where such disposal takes place within five (5) years of the date of completion of the Eligible Project.	Request an asset inventory or list of assets. Verify that all assets financed by the federal Gas Tax Fund within the last five years are listed.  If assets financed by the federal Gas Tax Fund within the last five years are not listed, review transactions recorded in the general ledger to calculate revenues generated during the year by the sale, lease, encumbrance or other disposal of these assets. Verify that this revenue is accurately reflected in the Annual Report and was reinvested in Eligible Projects or paid to the federal Gas Tax reserve fund during the year.
<b>11.2 Notice</b>  The Recipient shall notify AMO in writing 120 days in advance and at any time during the five (5) years following the date of completion of an Eligible Project if it is sold, leased, encumbered or otherwise disposed of.	Verify, by reviewing correspondence with AMO, that AMO was notified in writing 120 days in advance and at any time during the five (5) years following the date of completion of an Eligible Project if it is sold, leased, encumbered or otherwise disposed of.
<b>11.3 Public Use</b>  The Recipient will ensure that Infrastructure resulting from any Eligible Project that is not sold, leased, encumbered or otherwise disposed of, remains primarily for public use or benefit.	To confirm that the Recipient has retained assets financed by the federal Gas Tax Fund, verify that assets financed by the federal Gas Tax Fund are included in the asset inventory or list of assets requested to review clause 11.1.

**Specified Procedures**

Review the Recipient's responses to the 2019 Risk Management Questionnaire (RMQ; Appendix E-2). Confirm that the Recipient has a written policy or procedure if they indicated that one exists on the RMQ. Record any exceptions.

Inform AMO if the Recipient indicated that they do not have a policy or procedure – but provided one during the audit. Do not record this omission as an exception.

## Overview

AMO monitors and manages risks associated with the administration of the federal Gas Tax Fund in accordance with its *Federal Gas Tax Risk Management Framework* and *Federal Gas Tax Risk Management Policy*. Your responses to this questionnaire help AMO assess risks and develop capacity-building programs.

The questionnaire consists of a series of questions regarding your municipality's financial policies and standard operating procedures (SOPs). Your responses are not used to allocate funding – but you will be asked to provide a written policy or SOP if you answer “yes” to a question and your municipality is selected for an audit.

Sample policies and SOPs can be found on the [Community](#) page.

## Definitions

A **policy** contains guiding principles and rules to meet organizational objectives. It contains at a minimum a purpose statement, scope, definitions and policy statement.

An **SOP** describes a series of steps to be followed as a consistent and repetitive approach to accomplish an end result. It is developed to support the effective implementation of policies.

### Q1. Does your municipality have a policy for the financial management of tangible capital assets?

A tangible capital asset policy describes how your municipality accounts for tangible capital assets – i.e., how your municipality defines, categorizes, and values assets, distinguishes between betterments and maintenance, handles capitalization and amortization, etc.

See the Canadian Institute of Chartered Accountants' [Guide to Accounting for and Reporting Tangible Capital Assets](#) for guidance on developing or improving your municipality's policy.

### Q2. Does your municipality have a long-term financial plan (including revenue, expenditures and capital requirements)?

Long-term financial planning combines financial forecasting with strategizing. Financial forecasting is the process of projecting revenues and expenditures over a long-term period, using assumptions about economic conditions, future spending scenarios, and other salient variables. Long-term financial planning is the process of aligning financial capacity with long-term service objectives. It uses forecasts to provide insight into future financial capacity so that strategies can be developed to achieve long-term sustainability in light of the government's service objectives and financial challenges.

### Q3. Does your municipality have an SOP for review of capital and operating accounts?

An SOP for the review of capital and operating accounts may establish a timeline for the review process, describe procedures to ensure that financial transactions are correctly classified and accounted for, and assign roles and responsibilities for the completion of the review.

### Q4. Does your municipality have a capital budget policy?

A capital budget policy establishes guidelines for the development and funding of capital projects. The policy may identify principles (e.g., affordability and sustainability), strategies (e.g., for community engagement), and guiding documents (e.g., the Official Plan) to be referenced when making budgeting decisions, assign roles and responsibilities to Council and municipal staff, and set out additional guidelines (e.g., thresholds for the inclusion of projects in the capital budget).

**Q5. Does your municipality have a tendering and/or procurement policy?**

A procurement policy promotes ethical, legal, efficient, effective, accountable, and transparent sourcing strategies with respect to the procurement of goods, services or construction. Municipalities are required to adopt and maintain a policy with respect to the procurement of goods and services under s. 270 (1) of the [Municipal Act, 2001, S.O. 2001, c. 25](#).

**Q6. Does your municipality have an investment policy?**

Municipalities investing in securities prescribed under [O. Reg. 438/97](#) in accordance with s. 418 of the [Municipal Act, 2001, S.O. 2001, c. 25](#) are required to adopt a statement of the municipality's investment policies and goals that considers:

- The municipality's risk tolerance and the preservation of its capital;
- The municipality's need for a diversified portfolio of investments; and
- Obtaining legal advice and financial advice with respect to the proposed investments.

An investment policy includes this statement and establishes a set of guiding principles that address the legislative and regulatory requirements described above.

See LAS's [Building Your Municipal Investment Policy](#) and AMO's [sample investment policy](#) for guidance on developing or improving your municipality's policy.

**Q7. Does your municipality have a policy for reserves and reserve fund financial management (including segregated accounts)?**

A policy for the financial management of reserves and reserve funds may provide guidelines and direction for the establishment of reserves, transfer of reserves, system of accounting for reserves and approvals for use of reserves.

**Q8. Does your municipality have an SOP for tracking federal Gas Tax agreement compliance?**

An SOP to ensure compliance with the [Municipal Funding Agreement](#) may specify processes to ensure that federal Gas Tax funds are used solely for eligible expenditures on eligible projects and procedures to monitor project and asset management outcomes for reporting to AMO.

**Q9. Does your municipality have an asset management policy?**

An asset management policy provides the framework to plan, design, construct, acquire, operate, maintain, renew, replace and dispose tangible capital assets in a way that preserves sound stewardship of public resources. The policy outlines the principles for developing an asset management plan that identifies priority infrastructure investments based on a consistent and coordinated approach to asset management in alignment with the strategic plan.

**Q10. Does your municipality have a debt management policy?**

A debt management policy has written guidelines, allowances, and restrictions that guide the debt issuance practices of municipalities, including the issuance process, management of a debt portfolio, and adherence to various laws and regulations. A debt management policy should improve the quality of decisions, articulate policy goals, provide guidelines for the structure of debt issuance, and demonstrate a commitment to long-term capital and financial planning. In Ontario, the amount of debt that can be authorized by a municipality is restricted by the provincial Annual Repayment Limit. Councils may not approve financial obligations that will, in total, exceed 25% of a municipality's own-source revenues.

**Notes**

- 1 The Risk Management Questionnaire is attached as Appendix E-2. See Appendix E-2 for question text.
- 2 For all "yes" answers, auditors found that there was a written policy or procedure except where noted.
- 3 Lanark Highlands provided a written policy for #6, but answered "No" to this question in error.
- \* Municipalities audited by Baker Tilly KDN LLP. All other municipalities were audited by BDO Canada LLP.

The exceptions noted by BDO Canada LPP and Baker Tilly Canada LLP are summarized in Appendix B. Separate reports were prepared for each municipality and are available upon request. AMO followed up with all municipalities and corrective actions were taken. There were no material exceptions. Most exceptions noted were due to delays in reporting caused by COVID-19 and were for municipalities with populations under 500.

### **3.3 – Contracts**

#### Observations

BDO identified one municipality where the summary of tender results was not submitted to Council as the tendering process was not used. This is not in accordance with the municipality's procurement policy.

#### Management Response

AMO connected with municipal staff to discuss this exception. Staff reported that there had been internal discussions – involving both Council and staff – regarding tendering procedures, the procurement policy and the need to adhere to both. Staff will ensure that contracts are awarded in accordance with the procurement policy in the future.

### **5.5 and 9.2 – Retention of Receipts and Separate Records**

#### Observations

Baker Tilly (BT) identified one municipality that did not have a records retention by-law.

BDO noted that two municipalities did not have a records retention by-law or policy. BDO recommends that such a by-law or policy be developed in order to ensure records related to federal Gas Tax funds are appropriately retained.

#### Management Response

AMO has followed up with all recipients and will continue to remind them of the best practice in having one. Sample record retention policies are available for all municipalities on AMO's federal Gas Tax Community Page.

### **6.6 – Use of Funds**

#### Observations

BDO identified four municipalities that did not record the federal Gas Tax funds in a segregated reserve fund.

- The first municipality has a segregated reserve fund but has not recorded any amount in it for 2019 as the financial statement audit has not yet been completed. Their auditor re-calculates this amount and determines whether it is the correct amount to record.
- The second municipality does not record their federal Gas Tax funds in their general ledger but rather tracks them using Excel.

- The third and fourth municipalities combine the federal Gas Tax reserve fund balance with those related to other government funding programs, rather than maintaining a segregated reserve fund for each program.
- One municipality did not deposit and maintain its federal Gas Tax funds in an interest-bearing account or investment.

BDO recommends that AMO communicate with all municipalities again regarding these requirements.

#### Management Response

AMO has followed up with these municipalities.

- In the first instance, the municipality noted that it has limited capacity and therefore relies on its auditors to review financial records pertaining to the federal Gas Tax Fund. Staff also noted that the annual audit was delayed as a result of COVID-19. The municipality acknowledges the need to record funds in a segregated reserve fund and are looking into options to improve this process in the future.
- In the second instance, the municipality has acknowledged the importance of a segregated reserve fund and has committed to establishing one for their federal Gas Tax funds.
- In the third and fourth instances, AMO has followed up with both municipalities. In one case the municipality calculated interest adequately but did not have it segregated in the general ledger and in the other case there was no interest as the municipality uses funds immediately. Both municipalities are very small, population >500, and have limited capacity.
- In one instance, the municipality did not deposit their federal Gas Tax funds in an interest-bearing account. AMO has followed up with the municipality who has historically used all of its FGT funds immediately upon receipt. The municipality will ensure funds received, no matter the amount, are in an interest-bearing account.

## **7.1 – Annual Reporting**

### Observations

BT identified three municipalities where the balances per the general ledger differed from those reported in AMO in the Annual Expenditure Report. BDO identified two municipalities where the balances per the general ledger differed from those reported to AMO in the Annual Expenditure Report. The amounts on the Annual Expenditure Report to AMO were noted by these municipalities as being correct.

BDO identified four municipalities where, consistent with the exception identified at 6.6, there was no segregated reserve fund in the general ledger.

For the municipalities where the balances per the general ledger did agree to the Annual Expenditure Report, it seemed difficult for their staff to understand which general ledger accounts they needed to provide. BDO recommends that AMO communicate with all municipalities again that the amounts on the report should come directly from the general ledger.

Management Response

The three identified by BT:

- For the first, a \$40 variance was found. This was noted earlier by AMO but the treasurer neglected to make the change before the audit.
- AMO noted the issues with the other two municipalities but the correction was not made until after the audit.

The two identified by BDO

- In the first instance, AMO has followed up with the municipality who was able to identify and correct the difference. They had underreported the interest the Funds has earned in their Annual Expenditure report. This has been revised.
- In the second instance, AMO has followed up with the municipality who is waiting for their annual audit to determine the interest their Federal Gas Tax funds had earned in 2019. Once their audit is complete, they will work with AMO to revise their 2019 Annual Expenditure Report.

**Risk Management Questionnaire**

Observations

BT found two municipalities had “yes” responses on the Questionnaire, even though did not have a corresponding written policy or standard operating procedure.

- For the one municipality the preparer of the Questionnaire was not able to locate the long-term financial plan.
- For the other municipality, the preparer of the Questionnaire, new treasurer, could at the time not locate two of the documents.

BDO found that five municipalities had “yes” responses on the Questionnaire, even though they did not have a corresponding written policy or standard operating procedures.

- For the first municipality, the preparer of the Questionnaire believed that such a policy did exist, but was unable to locate it.
- For the second municipality, the preparer of the Questionnaire mixed up two different written policies and answered “yes” where they did not have such a written policy and “no” where they did have such a written policy.
- For the third municipality, the preparer of the Questionnaire answered “yes” to two questions on the Questionnaire in error.
- For the fourth municipality, the preparer of the Questionnaire answered “yes” to four questions on the Questionnaire where the municipality does not have such a policy or standard operating procedures in writing.
- For the fifth municipality, the preparer of the Questionnaire answered “yes” to one question on the Questionnaire in error.

BDO recommends that AMO remind the municipalities to only answer “yes” on the Questionnaire for questions where they are sure they have the related written policy or standard operating procedure. It is recommended that the municipalities compile the written policies in one location as they complete the questionnaire to ensure that these items are available should AMO request them.

BDO further recommends that AMO set up annual monitoring of the responses to the Questionnaire to ensure further progress towards every municipality having all of the policies listed on the Questionnaire. Throughout the course of the engagement, BDO identified various policies that had not been recently updated. BDO recommends that policies be updated every five years.

Management Response

AMO reminds municipalities of the importance of ensuring responses are accurate and provides sample policy and procedure documents or templates.

AMO has established an annual monitoring of the response to the Questionnaires to ensure further progress.

AMO is working with other associations to support municipalities in developing and updating policies and procedures.

## Allocations of the Federal Gas Tax Fund: 2019

12870	New Tecumseth, Town of	Implementation of an Asset Management and Work Order System	This project is to implement a Work Order System with Integration to an Asset Management System. This will provide a significant input towards asset management as it performs the scheduling and recording of maintenance and condition assessment updates. The provision of more current asset financial information for decision making will enable the Municipality to make informed decisions regarding the life cycle changes and replacement requirements.	\$166,898.61	\$345,000.00	January 7, 2019	September 30, 2020	Ongoing
12834	Dorion, Township of	Official Plan & Zoning By-law Review/Replacement	The scope of this project is to update planning policies and regulations of the Township to be consistent with the Provincial Policy Statement, conform to the Growth Plan for Northern Ontario, and to address matters of provincial interest, initiatives and legislation. The updated Official Plan and Comprehensive Zoning By-law will replace the current versions and will be used to guide future growth, land use and development within the Township of Dorion.	\$6,474.70	\$40,704.00	June 7, 2019	June 30, 2021	Ongoing
12768	Vaughan, City of	Capital Asset Management (CAM) Strategy Update and Roadmap	This project involves updating, refining and expanding the Corporate Asset Management Strategy that originated with the Vaughan Vision 2020 Strategic Plan in 2012, and the 2013 Corporate Asset Management Strategy and Roadmap (Phase 1), in order to align with Ontario Regulation 588/17.	\$79,728.78	\$355,350.00	January 1, 2019	December 31, 2021	Ongoing

12309	London, City of	Organic Rankine Cycle (ORC) - Greenway Pollution Control Plant	Install an Organic Rankine Cycle (ORC) system at Greenway Pollution Control Plant. Annually, 17,000 dry tonnes of biosolids are incinerated at the plant, producing heat for the buildings. The ORC system will convert that heat to electricity. It is projected to produce 475 kW of electricity, saving the City \$600,000 per year in electricity costs. This process is expected to displace 3.75 GWh of electrical consumption from Ontario's power grid, equivalent to 475 residential homes in London.	\$746,020.18	\$11,000,000.00	August 1, 2019	March 31, 2021	Ongoing
12279	Pickering, City of	Recreation Complex Heating Boiler System Replacement	Lifecycle replacement of a hot water storage tank, heat pumps and three heating boilers. The existing tank is being replaced with three smaller and more efficient tanks. The existing boilers require frequent and expensive maintenance and are being replaced with newer, more reliable and efficient units. The existing heat pumps are at the end of their expected lives and are being replaced as part of the same project. Work includes reconfiguration of valves, piping, sensors and related controls.	\$26,200.00	\$314,887.00	May 1, 2019	December 31, 2020	Ongoing

<b>Community Energy</b>								
12104	Morley, Township of	Heating System for the North Branch Hall	The main objective of the project was to provide a heating system in the North Branch Community Hall. Previously there was only a wood stove which deterred use of the local residents. The new heating system provides propane heat which is low maintenance and efficient. Propane may be a more costly fuel than wood, but it burns hotter, more efficiently and more evenly, so the space you're supplementing your heat in won't fluctuate the same way it might with a wood burning fireplace.	\$487.96	\$5,088.00	August 1, 2019	December 31, 2019	Yes
12027	Pickering, City of	Chilled Water System Pump Replacement at the Civic Complex	The main objective is to upgrade high energy efficient equipment in municipal buildings and to ensure life cycle replacement of the 29-year old pumps. Work includes preparation of engineering drawings, design, development of specifications for replacement of the chilled water and condenser pumps, and supply and installation of new chilled water and condenser systems pumps.	\$8,827.68	\$110,000.00	June 3, 2019	October 31, 2020	Ongoing

11483	Cambridge, City of	Heritage Building Restorations - Young Chapel	Restoration of windows at the Young Chapel heritage building. This is a critical project to maintain the integrity of the building. Windows have buckling, cracked glazing and evidence of moisture penetration. The impact of not completing this project would be more deterioration of the building, increased maintenance costs and safety issues if the windows start to fall (e.g., from broken glass).	\$46,249.00	\$250,000.00	December 1, 2018	December 31, 2019	Yes
11393	Brampton, City of	Renovation of Lester B. Pearson Theatre	The City of Brampton is investing in various renovations at the Lester B. Pearson Theatre. Renovations involve accessibility enhancements, health and safety upgrades, technical equipment upgrades and a redesigned lobby area. These upgrades are in conformity with the Brampton 2040 vision and cultural master plan.	\$2,300,393.85	\$2,592,000.00	January 1, 2018	December 31, 2019	Yes
11225	Mississauga, City of	Cultural Heritage Replacements	Replacement of floors and washrooms at Bradley Museum and improvement of facade at Small Arms Inspection Building (SAIB) to come into compliance with the Ontario Heritage Act. Work also involves improvements in the Living Arts Centre, particularly door replacements at the loading dock, door replacements to satisfy accessibility requirements as well as flooring and soundproofing to ensure that the facility remains in good condition.	\$131,494.08	\$166,791.90	January 2, 2018	December 31, 2020	Ongoing

13166	Cobourg, Town of	Improvement of the Terry Fox Storm Water Management Pond	The Town is improving the storm water management pond at the south end of Tillison Ave in the Terry Fox subdivision. The project involves completing a study to determine the scope of work required, followed by construction to improve the function of the pond.	\$23,236.80	\$275,000.00	June 1, 2019	December 31, 2021	Ongoing
13146	Grimsby, Town of	Shoreline Protection 3rd/6th/9th Streets, Outlet 7-3	The objective of the project is to control erosion of the Lake Ontario shoreline. The Town's Lake Ontario shoreline bluffs are eroding due to wave action and high water levels. The shoreline protection helps prevent the loss of municipal infrastructure (road, water and sanitary) servicing the developed land above the lake front. A revetment using armour stone is being constructed at the site.	\$13,265.26	\$250,000.00	May 1, 2019	December 31, 2020	Ongoing
13127	Brockville, City of	Cunningham Park Seawall Rehabilitation	The City is rehabilitating the Thomas Street Seawall. The seawall had rusted through over many years, allowing water to pass through and undermine the end of the roadway, as well as along the entire wall itself. The City is therefore installing a new seawall in front of the old one and capping it off. A new sidewalk is also being installed as the old one needs to be removed to allow for the bracing of the new wall.	\$2,641.24	\$460,000.00	December 10, 2019	July 18, 2020	Ongoing

<b>Disaster Mitigation</b>								
12594	Blind River, Town of	Reconstruction of the Breakwall at the Matinenda Landing Boat Launch	The Matinenda Landing breakwall and boat launch is the only access point for people who have cottages on Lake Matinenda. The breakwall was seriously eroded and in danger of collapse. This was exacerbated by the extremely high water levels in 2019. The project was to rebuild the breakwall. The landing and breakwall area is also heavily used by locals and tourists alike to access the lake for fishing and recreation.	\$187,843.01	\$307,843.01	August 1, 2018	December 31, 2019	Yes
12520	James, Township of	Retaining Wall Removal and Replacement with a Break Wall on the Montreal River	Retaining wall was constructed in mid 1960's and is located behind the Municipal Office on the Montreal River. It was originally constructed by the Department of Lands & Forests (now Ministry of Natural Resources & Forests). Engineers deemed it beyond repair and in danger of giving way and slumping into the Montreal River. With Gas Tax funds and OCIF funds, the Township was able to have the retaining wall removed and replaced with a breakwall, thus eliminating all safety concerns.	\$43,804.11	\$108,051.59	October 7, 2019	October 31, 2019	Yes
12019	Windsor, City of	Peche Island Shoreline Preservation/Mitigation	The Peche Island erosion protection include a series of 9 islands and 12 rock berms created out in the water off the coast of the north and east side of Peche Island that will protect the shoreline from further erosion as well as provide fish habitat.	\$4,600.00	\$2,450,000.00	July 15, 2019	July 15, 2021	Ongoing

<b>Drinking Water</b>								
12341	Welland, City of	Replacement of Aging Cast Iron Watermain	Lengths of aging cast iron (CI) watermain were replaced across the City due to deteriorating condition. Approximately 970 m of 150 mm diameter and 140 m of 200 mm diameter CI watermain were replaced with PVC mains of the same size. Locations were prioritized based on infrastructure data including break history, design life and documented issues. The replacements will ensure continued service delivery without risk of adverse water quality due to breaks.	\$250,000.00	\$2,229,000.00	May 6, 2019	December 31, 2020	Ongoing
12329	North Glengarry, Township of	Water Main Replacement	This project involved 300 meters of 4 inch water mains being replaced with 6 inch mains, providing enhanced water pressure for residential use and fire suppression capabilities. This will mitigate potential water main breaks.	\$245,214.00	\$270,000.00	January 1, 2019	December 31, 2019	Yes
12308	London, City of	Watermain Replacement on Waterloo Street	To replace deficient (undersized) watermains on Waterloo Street between Oxford Street E to Grosvenor St. Work involves replacement of 480 m of 1900 vintage cast iron watermain with new PVC watermain. Infrastructure replacement is being done in conjunction with the reconstruction of Waterloo Street including wastewater and stormwater services.	\$0.00	\$1,173,104.00	August 1, 2019	June 30, 2020	Ongoing

Work involves milling and hot mix paving - along with concrete sidewalk and curb reconstruction where necessary.</p> <p>Brockville maintains 248 km of driving lanes and 110 km of sidewalk. Every road is assessed annually and rated using a modified version of the MTO Road Rating system. Roadways with the worst condition ratings are rehabilitated.</p>	\$730,000.00	\$780,000.00	June 1, 2019	December 31, 2020	Ongoing
13111	Muskoka Lakes, Township of	Slurry Seal Resurfacing of Arundel Lodge Road	Slurry seal was applied to the full length of Arundel Lodge Road. Slurry seal is a cold mix blend of asphalt emulsion, graded fine aggregate, mineral filler, water, and other additives, mixed and uniformly spread over the pavement surface as slurry to the prepared road surface. Slurry seals correct superficial distresses, seal pavement surfaces from intrusion of water, and slow surface oxidation and raveling, increasing the service life of the treated surface by 4 to 8 years.	\$14,818.73	\$14,818.73	April 1, 2019	December 31, 2019	Yes

<b>Local Roads and Bridges</b>								
13110	Muskoka Lakes, Township of	High Float Surface Treatment of Butter & Egg Rd	The project on Butter & Egg Road (from Muskoka Road 118 W to District Road 47) consisted of brushing, drainage improvements, spot base repair and resurfacing with a high float emulsion double surface treatment. The existing road surface had reached the end its life cycle. Work addresses deficiencies in brushing, drainage and the base and also extends the service life of the road. The double surface treatment consisted of two layers of high float emulsified asphalt and class 2 crushed aggregate.	\$377,650.54	\$377,650.54	April 1, 2019	December 31, 2019	Yes
13102	Central Elgin, Municipality of	Hot Mix Paving and Surface Treatment in the Norman Subdivision	Asphalt resurfacing of the Norman Subdivision (1.8 lane-km) was identified to be completed in 2020 in accordance with the Municipality's ten year hot mix resurfacing plan as stated in the 2019 State of the Infrastructure and Asset Management Plan Report. The existing condition of the road surface had deteriorated to a point where full depth removal and replacement was required to improve road conditions and to ensure the safety of pedestrians.	\$627,236.02	\$627,236.02	April 1, 2019	November 30, 2019	Yes

<b>Local Roads and Bridges</b>								
12896	North Stormont, Township of	Concession 6-7 Bridge Replacement	The Township's Major Culverts and Bridges Condition Survey recommended this project as a priority in order to conform with current bridge standards. If this Bridge reached it's useful life, the Township would have had to close the road and deny access to the public due to safety concerns. Instead, the concrete bridge (#41) structure was replaced with twin 1,200 mm corrugated steel pipe culverts, which will provide many more years of public access.	\$11,524.92	\$11,524.92	August 1, 2019	September 30, 2019	Yes
12895	Kapuskasing, Town of	Sidewalk Reconstruction on Brunetville Road	This project is for the complete reconstruction of the sidewalk on the south side of Brunetville Road between Erickson Street and Brock Crescent. The new sidewalk section is 187 m long by 1.5 m wide. The reconstruction of the sidewalk was necessary as the existing sidewalk had exceeded its useful life cycle and required frequent maintenance. The reconstruction of the sidewalk improves the overall safety of pedestrians and helps the Town of Kapuskasing meet its accessibility objectives.	\$66,425.17	\$66,425.17	July 2, 2019	December 31, 2019	Yes

<b>Local Roads and Bridges</b>								
12885	Gordon/Barrie Island, Municipality of	Resurfacing Poplar Road	Work involves the application of surface treatment to 33 km of this two-lane road. Poplar Road is a main artery road through the Municipality and is used by people to travel to work, go shopping, and visit parks. The road also connects the Municipality to other communities and thereby provides access to services. The Municipality hopes to extend the life of the road, and hope to improve safety and access to services and infrastructure.	\$63,860.76	\$79,781.79	July 1, 2019	December 31, 2019	Yes
12884	Bancroft, Town of	Rehabilitation of Sections of the Connecting Link	Connecting Link highways are heavily traveled. The Town closely monitors these roads to ensure the continued safety and comfort of travelers. Monitoring identified four sections (totaling approximately 0.75 km in length) that were beyond repair. These sections were milled out and replaced with new asphalt to reduce liability risks, increase the safety and comfort of travelers, and extend the useful life of the road.	\$65,898.93	\$85,748.84	August 28, 2019	August 29, 2019	Yes

<b>Local Roads and Bridges</b>								
12883	Bancroft, Town of	Chemaushgon Rd Reconstruction	Chemaushgon Rd is the busiest road in Bancroft. A 2.7 km section was beyond repair and creating liabilities for the Town; major potholes had appeared, and heavy traffic had created excessive wheel rutting. Complaints were common and repairs were expensive and frequent. The Town therefore pulverized the road, applied A Gravel, reshaped it to final grade, and applied a final top lift of asphalt - increasing road safety, reducing complaints, and extending the useful life of the road by 15 years.	\$422,362.34	\$422,362.34	July 24, 2019	August 8, 2019	Yes
12881	Bancroft, Town of	L'Amable and Lakeview Rd Resurfacing	Lakeview Rd is 3.7 km long and connects two well-traveled roads within the municipality. Old L'Amable Rd is 2.5 km long and is an access point to a heritage trail. Both were in a poor state of repair and causing safety issues. Resurfacing prolonged the life of the two roads and gave them more grip, creating a safer roadbed for travelers and reducing the risk of undue harm and liability.	\$115,970.00	\$115,970.00	July 2, 2019	July 3, 2019	Yes
12880	West Grey, Municipality of	Bridge Structure G-47 Rehabilitation	The bridge structure G47 has exceeded its expected life and is in need of rehabilitation. The work involves the rehabilitation of concrete wingwalls, abutment walls, and concrete deck areas, as well as the replacement of steel guiderails.	\$68,871.96	\$68,871.96	April 1, 2019	November 29, 2019	Yes

<b>Local Roads and Bridges</b>								
12240	Kitchener, City of	Stoke Drive Bridge Rehabilitation	The 2016 bridge inspection program has identified Stoke Drive Bridge as one of the structures that requires increased rehabilitation work to maintain the service level of the structure. The rehabilitation involves replacing or rehabilitating galvanized culvert barrels, concrete patching, replacing rotted/rotated timber rail posts, rehabilitating gabion baskets and railing with galvanizing, and routing and sealing wearing surface cracks.	\$0.00	\$250,000.00	February 18, 2019	December 31, 2021	Ongoing
12239	Kitchener, City of	Balzer Road Bridge Rehabilitation	City bridges are inspected on a two-year cycle. In late 2018, the Balzer Creek bridge was inspected and was found to have some structural deficiencies. If unaddressed, the bridge will have to be closed to vehicular traffic by 2021. This project involves the full scale replacement of the existing bridge in 2020 with a precast bridge. Refurbishment is not a viable option based on the state of the existing bridge.	\$153,000.00	\$392,000.00	February 18, 2019	December 31, 2020	Ongoing
12234	Kitchener, City of	Road and Laneway Resurfacing	The project involves road rehabilitation with full depth milling and pulverizing with the removal of existing asphalt, addition of granular A road base as necessary, re-grading of the existing road, re-paving 60-100 mm of HL4 binder asphalt and 40 mm of HL3 surface asphalt, and the correction of drainage issues. In total, 16 streets will be rehabilitated with a combined length of 7250 m and a total area of 71,400 sq m.	\$5,018,081.00	\$6,985,990.45	February 18, 2019	December 31, 2019	Yes

12096	Casey, Township of	Preparation to Resurface Development Road	The project consists of pulverizing the existing surface of Development Road (6.4 km), ditching, and installing new culverts in preparation for 2020's reconstruction of the road.	\$47,562.03	\$1,426,205.00	August 6, 2019	December 31, 2021	Ongoing
12095	Nairn & Hyman, Township of	Rehabilitation of Coal Dock Rd., Belle Bay Cres., Baker Dr. and Sand Bay Rd.	The scope of work consists of a 4" lift of the road beds, by spreading and grading 3,000 tonnes of "A" Gravel on approximately 2 km of roads in Sand Bay Village. By adding the new surface material and correcting any drainage with grading, the roads in that area will be much safer and less likely to form pot holes and corrugation.	\$51,701.71	\$62,673.98	August 1, 2019	November 8, 2019	Yes
12092	Sioux Narrows-Nestor Falls, Township of	Rehabilitating Lakeview Terrace Road	Project involved rehabilitating an unused portion of the municipal road known as Lakeview Terrace Road to bring the road to municipal standards, accommodate use by property owners who recently purchased vacant lots on the road, and allow for the safe passage of traffic.	\$15,555.00	\$17,072.10	May 10, 2019	May 31, 2019	Yes
12091	Sioux Narrows-Nestor Falls, Township of	Municipal Road Resurfacing	The project involved both single and double surface treatment of 4.2 km of municipal roads in our Township to a width of 20 feet. The project also included replacement of some primary culverts ahead of the resurfacing as well as some ditching.	\$127,309.11	\$141,335.88	September 24, 2019	November 15, 2019	Yes

<b>Local Roads and Bridges</b>								
12085	Pembroke, City of	Reconstruction of Victoria Street from Renfrew Street to the Railroad Right-of-Way	Victoria St has exceeded its useful life by 52 years and has degraded beyond what normal maintenance activities can resolve. Existing overhead utility poles are in close proximity to the road edge and are a hazard for traffic. Underground infrastructure is between 35 - 57 years beyond useful life. Full reconstruction (water, sewer, storm, road, sidewalk) of Victoria Street will provide buried utilities, new street and pedestrian lighting, wider sidewalks and managed on street parking.	\$1,775,336.00	\$3,637,530.75	May 23, 2019	July 17, 2020	Ongoing
12084	Clarington, Municipality of	Rehabilitation of Lakeshore Rd, Concession Rd 6, Concession Rd 10, Baker School Rd Seal Coat	Work involves 18.8 km of rehabilitation with high float, ditching and safety improvements. This section of the Lakeshore Rd forms part of the waterfront trail which is used extensively on an annual basis and is host to several well organized rides in support of various causes. There have been concerns with the condition of this road. Conc. Rd 10 has seen increased development resulting in higher traffic and there have been 22 accidents on this stretch of road from 2016-2019.	\$934,792.47	\$2,200,000.00	July 1, 2019	December 31, 2020	Ongoing
12083	Carling, Township of	Resurfacing Remy & Pengally Bay Road	This project involves applying gravel along 6.37 lane-km of road to mitigate deterioration and flooding.	\$76,862.93	\$76,862.93	October 28, 2019	November 28, 2019	Yes

<b>Local Roads and Bridges</b>								
12082	Head, Clara & Maria, United Townships of	Deux Rivieres Salt Shed Roof Replacement	The roof of the salt shed needs to be replaced to prevent further damage and possible failure of the structure. There are areas where the shingles have deteriorated so badly that the plywood underneath is exposed. Also, if there is to be a heavy snow load this winter the roof will not be able to support the load. An added benefit would be reduced energy consumption. The existing shingles are being removed and replaced with galvanized steel.	\$4,647.90	\$5,161.28	October 21, 2019	December 31, 2019	Yes
12081	North Algona Wilberforce, Township of	Rehabilitation of Island View Drive	The road has failed and requires constant patching to maintain a safe and usable surface. The Township is therefore rehabilitating the road (over a length of 3.3 km) by pulverizing the surface, repairing the base, addressing four cross drainage issues, completing brushing and dust control, and applying a double surface treatment.	\$39,465.80	\$39,465.80	September 1, 2019	November 30, 2020	Ongoing
12079	Uxbridge, Township of	Improvements to Lower Brock St	Lower Brock St is a major road located in our downtown business area. The road segment is 180 m and is between Main St and Toronto St S. Sidewalks along the road are being changed and work is underway to improve accessibility, street lighting (by replacing light fixtures with higher wattage fixtures), and security (by installing cameras).	\$0.00	\$350,000.00	October 1, 2019	December 31, 2021	Ongoing

<b>Local Roads and Bridges</b>								
12026	Algonquin Highlands, Township of	Road Reconstruction and Double Surface Treatment of Walker Line Road	Walker Line Road was rehabilitated from the intersection of Buckslide Rd and Walker Line Rd to the turnaround at the end, approximately 1.8 km in length and 6.5 m in width. The work consisted of mechanical brushing, ditching, culvert replacement, pulverizing the existing road surface, large stone removal from the base, and the addition of base gravels. A double surface treatment followed by a fog seal application was applied.	\$70,000.00	\$181,592.69	May 13, 2019	October 1, 2019	Yes
12025	Windsor, City of	Traffic Signals - Capital Upgrades and Replacements	Traffic signal system upgrades and signal improvements at various locations within the City. We are installing new cameras and implementing adaptive signal timing to improve flow of traffic.	\$0.00	\$1,644,475.00	July 15, 2019	December 31, 2021	Ongoing
12024	Chatham-Kent, Municipality of	McNaughton Avenue West Improvements	Urban design upgrade. Work involves continuation of sidewalks and street lighting, road resurfacing, curb installation, intersection upgrades and underground service upgrades from the corner of Keil Drive to Bearline.	\$414,272.85	\$2,246,000.92	November 2, 2018	December 31, 2019	Yes
12023	Chatham-Kent, Municipality of	Reconstruction of Devon Rd/Churchill and Sussex Streets	1.83 lane km of road is being reconstructed due to the poor condition of the roadway and watermain. Existing road is being upgraded to a proper urban cross section with full depth removal and replacement including the addition of curb and gutter. 645 m of sidewalk is being replaced due to poor condition and 170 m of sidewalk is being added to connect sidewalk on Churchill to Grand.	\$408,544.80	\$1,430,051.83	March 13, 2019	December 31, 2019	Yes

<b>Local Roads and Bridges</b>								
12006	Marathon, Town of	Resurfacing Hemlo (Jackson to Steedman)	Final project identified in 2012 Road Resurfacing Plan. The current surface requires constant maintenance and pothole patching. The current surface will be milled and recycled. Allowance will be made for proper drainage and the surface will be paved to 50 mm thickness with new "Super Pave" asphalt to MTO standards.	\$697,244.43	\$1,278,761.02	January 1, 2019	December 31, 2019	Yes
12003	South Bruce Peninsula, Town of	Reconstruction of Lakeshore Blvd N - Sixth St N to King Edward Ave	Reconstruct approximately 700 m of Lakeshore Blvd N from Sixth St N to King Edward Ave. Reconstruction will include pulverizing the existing surface, excavating areas of deficient sub grade, application of a 12" lift of granular B and 6" lift of granular A, and application of a 50 mm lift of HL-4 base and a 40 mm final lift of HL-3 asphalt.	\$213,000.00	\$269,458.92	September 2, 2019	November 15, 2019	Yes
11999	Huron-Kinloss, Township of	Rehabilitation of Concrete Rigid Frame Bridge	The 9.1 metre span concrete rigid frame structure was constructed in 1964. The structure was rehabilitated to address deficiencies in the deck, soffit, reinforced barrier walls, deck drains, steel guide rails and waterproofing to extend the useful life for another 30 years.	\$262,900.11	\$262,900.11	May 1, 2019	December 31, 2019	Yes

<b>Local Roads and Bridges</b>								
11998	Tay, Township of	Resurfacing Ebenezer Sideroad, Rumney Road, and Sections of Ron Jones Road	Resurfacing 1,850 m of Rumney Road, 2,300 m of Ebenezer Sideroad and portions of Ron Jones Road (200 m north of Hogg Valley Rd to McMann Sideroad, and Ebenezer Sideroad to 400 m south). Work involved pulverizing the existing surface and laying new asphalt. Improvements were also made to drainage on Ron Jones Road and Ebenezer Sideroad. All three sections had significant failures and increasing patching costs. This project improves the smoothness of the road and assists with traffic flow.	\$620,239.80	\$628,797.62	August 1, 2019	December 31, 2019	Yes
11989	Cobourg, Town of	Widening and Reconstruction of Albert Street	Widening and reconstruction of 610 m of Albert St from Third St west towards Ontario St. Albert St is a major cross-town roadway which provides an alternate route to King St, the main street in Cobourg. This is critical as portions of King St are closed often for events when the traffic volume shifts to the Albert St corridor. The current condition of asphalt is poor and in need of replacement. This project also includes the replacement of water, sanitary and storm sewers.	\$0.00	\$500,000.00	October 1, 2018	December 31, 2020	Ongoing

<b>Local Roads and Bridges</b>								
11988	Cobourg, Town of	James St E Reconstruction	Full reconstruction of James St E from Division St to College St – 260 m in length. This project involved the complete reconstruction of this portion of the street including replacement of water and sanitary sewer lines, sidewalks, hydro lines, and reconstruction of the street itself.	\$0.00	\$895,000.00	June 1, 2017	June 30, 2019	Yes
11985	Centre Hastings, Municipality of	Rehabilitation of Thomasburg Road	Pulverizing 4.7 km of road, ditching, addition of Granular "A" gravel and new surface treatment of Road. This work will significantly improve the road surface and extend the useful life of this asset, reducing maintenance and improving safety for travelling public.	\$334,366.54	\$376,000.00	June 25, 2019	August 30, 2019	Yes
11984	Centre Hastings, Municipality of	Sills Road Rehabilitation	Project involves ditching, pulverizing and surface treatment. It involves two sections of the road: 1.5 km of the West section of road and 0.65 km of the East section of road.	\$70,852.51	\$170,000.00	June 17, 2019	November 1, 2019	Yes
11983	Beckwith, Township of	Repaving Mockingbird Lane, Hummingbird Lane and Cedar Crest Drive	Road work to include pulverizing existing road surfaces, reconstructing roads where required and resurfacing with hot mix asphalt. The total length of roads being repaved is 1.44 lane kilometers.	\$161,524.72	\$161,524.72	July 3, 2019	November 7, 2019	Yes

<b>Local Roads and Bridges</b>								
11982	Beckwith, Township of	Reconstruct Section of Cuckoos Nest/Bourne Roads	The Cuckoo's Nest Rd Project improved a section of this road from gravel to surface treat which ensured the local residents were not adversely affected with the increase in traffic caused by increase in residential development in that general sector of the municipality and increased traffic resulting from commercial development in the area (quarry).	\$184,859.58	\$184,859.58	July 3, 2019	November 7, 2019	Yes
11980	Clarington, Municipality of	Surface Treatment of Multiple Streets	The scope of work includes ditching, pulverizing the existing surface, placement of additional granular 'A', grading, compaction, and resurfacing with double surface treatment and fog seal. Roads completed last year will receive a slurry seal and line painting this year. The objective of the project is to improve the serviceability and safety of the roads. Approximately 23 km of roadway are being resurfaced and 19 km are being treated with slurry seal.	\$300,000.00	\$2,641,263.24	June 1, 2019	December 31, 2020	Ongoing
11979	Clarington, Municipality of	Pavement Rehabilitation in Multiple Locations	Pavement rehabilitation to extend the life cycle of road pavement structures with asphalt overlays in conjunction with asphalt base repairs. Work involves the reconstruction of 800 m of roadway to an urban standard (including concrete curbs, storm sewers, gravel road base and asphalt surface), re-paving and rehabilitation of 4,225 m of asphalt roadways, and preventative resurfacing of 3,400 m of asphalt roadways.	\$1,902,417.52	\$4,559,370.00	June 1, 2019	December 31, 2020	Ongoing

<b>Local Roads and Bridges</b>								
11971	Limerick, Township of	St. Ola Road Rehabilitation	The project is for the rehabilitation of St. Ola Road, from Highway 62 to east of Wadsworth Lake Lane, and includes replacement of centreline culverts, ditching including rock excavation, clearing of trees and brush, installation of new steel beam guide rail systems, pulverizing of existing bituminous material and the installation of hot mix asphalt, as well as the rehabilitation of the St. Ola Road Bridge to include for a new barrier system as well as other minor improvements.	\$150,591.37	\$2,644,200.00	July 1, 2019	December 31, 2019	Yes
11956	Minto, Town of	8th Line Paving	The road surface was in poor condition and deteriorated quickly due to the increased volume of traffic in this area. The 8th Line paving project included sand padding, surface asphalt and shoulder gravel over 4 km.	\$112,000.00	\$209,683.00	July 1, 2019	December 31, 2019	Yes
11953	Huron Shores, Municipality of	Eley Road Reconstruction	Rebuild 1.2 km (involving excavation of 800 m, 6" gravel grading and compaction) and engineering. Surface treatment planned for 2020. This is a heavily traveled roadway and is a priority for residents of Ward 3 and in the asset management plan.	\$175,000.00	\$326,738.32	July 15, 2019	November 29, 2019	Yes
11952	Huron Shores, Municipality of	Resurfacing Dean Lake Road	Surface treatment of 3 kilometers of road surface. This is a heavily used section of roadway and is a priority of the asset management plan and for the residents in Ward 4.	\$70,000.00	\$72,975.03	July 15, 2019	October 31, 2019	Yes

<b>Local Roads and Bridges</b>								
11951	Stone Mills, Township of	Road Resurfacing Embury, Martin, and Centerville	This project involves resurfacing Embury Road North end, Martin Road and Centerville Road east of CR 27 in accordance with our asset management plan. This will mitigate future costs of maintenance and reduce greenhouse gases by providing traffic with a smoother surface of travel.	\$132,712.33	\$132,712.33	June 28, 2019	September 24, 2019	Yes
11949	O'Connor, Township of	Broome Road - Resurfacing and Ditching	The 1.6 km stretch of Broome Road lying east of Garbutt Road is being resurfaced with granular gravel. Drainage is also being improved.	\$11,503.57	\$29,225.08	June 17, 2019	October 31, 2019	Yes
11948	O'Connor, Township of	Resurfacing of Cliff McLean Road	O'Connor Township is resurfacing 1.6 km of Cliff McLean Road. Drainage is also being improved.	\$20,385.29	\$35,000.00	June 17, 2019	June 30, 2019	Yes
11947	O'Connor, Township of	Resurfacing Diana Road	Diana Road is being resurfaced for 1.6 km with granular gravel.	\$21,594.15	\$21,955.93	June 17, 2019	July 31, 2019	Yes
11946	Minto, Town of	Sidewalk Construction	Many of the sidewalks in Minto are less than standard width and are in poor to fair condition. Sidewalk replacement is an on-going process depending upon budget allocation. The Town is installing 110 m of new sidewalk on William Street in Clifford, replacing 200 m on Robertson Street in Harriston, installing 200 m of new sidewalk on Toronto Street in Palmerston, and replacing 240 m on King Street in Palmerston.	\$60,000.00	\$103,531.00	July 1, 2019	December 31, 2019	Yes

<b>Local Roads and Bridges</b>								
11945	Minto, Town of	12th Line East Section Rehabilitation	This road section is heavily travelled and in poor condition. In 2019, guide rail installations and engineering design work will be completed. This is a large project which will be spread over several years depending upon funding.	\$32,446.00	\$56,912.00	August 1, 2019	December 31, 2022	Ongoing
11944	Petawawa, Town of	Reconstruction of John St, Laura St, Norman St and Herman St	This project involves the reconstruction of John Street (north end of John Street to Herman Street - 440 m), Laura Street (John Street to east end of Laura Street - 78 m), Norman Street (Mary Street to John Street - 105 m) and Herman Street (Mary Street to John Street - 120 m). The works include grading, granular base, hot mix paving, concrete curb and gutter, concrete sidewalk, storm sewers, sanitary sewer repairs, watermain improvements and landscaping.	\$530,873.05	\$1,188,540.76	May 13, 2019	August 21, 2019	Yes
11942	Adjala-Tosorontio, Township of	Adjala-Tecumseth Townline Reconstruction	The Township is fully reconstructing 85 m on the Adjala-Tecumseth Townline where severe deficiencies exist. The reconstruction involves excavation to 540 mm depth and installation of new granular sub-base, granular base, binder course hot mix asphalt and surface course hot mix asphalt.	\$138,789.64	\$177,000.00	July 2, 2019	February 28, 2020	Ongoing

**Federal Gas Tax Fund

<b>Local Roads and Bridges</b>								
11941	Adjala-Tosorontio, Township of	Concession Road 4 Reconstruction	The Township is fully reconstructing 185 m of Concession Road 4 where severe deficiencies exist. The reconstruction involves excavation to 540 mm depth and installation of new granular sub-base, granular base, binder course hot mix asphalt and surface course hot mix asphalt.	\$109,239.62	\$133,000.00	July 2, 2019	February 28, 2020	Ongoing
11939	Bonnechere Valley, Township of	McGrath Road Reconstruction - From Hwy 41 for 6 km	Rehabilitation of McGrath Road with double surface treatment extending from Hwy 41 due south for 6 km. Project includes pulverizing, patching, ditching, changing culverts and application of 150 mm of A Gravel. The road is being widened from 6 m to 7.2 m to address safety issue with regards to vehicle and bike traffic. On an average day, 200 to 399 vehicles use the road and the road is used as a school bus route.	\$217,702.68	\$405,933.91	June 10, 2019	December 31, 2019	Yes
11936	Prescott & Russell, United Counties of	Resurfacing Parts of County Roads 2, 3, 8, 9, 14, 16, 17 and 24	Projects included are portions of County Roads 2, 3, 8, 9, 14, 16, 17 and 24. All the projects consist of overlaying a lift of hot mix paving. Some locations like the section of County Road 9 and County Road 17 will have the existing asphalt cold-in-place recycled prior to overlaying. The main objective of the project is to have safer and smoother roads. An approximate total of 19.3 km of roads are resurfaced.	\$2,775,600.00	\$3,534,707.72	May 20, 2019	December 20, 2019	Yes

<b>Local Roads and Bridges</b>								
11928	Stormont, Dundas & Glengarry, United Counties of	Resurfacing and Restoration of County Road 24	Approximately 9,010 m of road are being resurfaced. Work involves cold-in-place recycling with expanded asphalt to a depth of 100 mm, application of a 50 mm lift of hot mix asphalt and shouldering. The cold-in-place stabilizes the existing base, providing a solid foundation for the surface course of asphalt and a seal to prevent water infiltration into the road base and premature failure. The surface course improves surface friction and drainage resulting in a high-quality surface for travelers.	\$1,609,142.64	\$1,645,192.77	June 24, 2019	September 23, 2019	Yes
11918	Clarence-Rockland, City of	Culvert Replacement on Landry Road	Replace an existing culvert on Landry Road that has exceeded its expected operating life with a 1,200 mm diameter polymer-coated corrugated steel pipe.	\$243,062.15	\$243,062.15	July 8, 2019	December 20, 2019	Yes
11917	Clarence-Rockland, City of	Asphalt Resurfacing of Old Highway 17	Adding a pavement overlay to the existing asphalt surface of Old Hwy 17 between civic address 2935 and 3465 Old Hwy 17 (an approximate distance of 2.1 km).	\$190,102.14	\$230,000.00	June 16, 2019	October 31, 2019	Yes

<b>Local Roads and Bridges</b>								
11915	Guelph/Eramosa, Township of	Sixth and Seventh Line Resurfacing	Sixth Line and Seventh Line are local rural roads totaling approximately 13 km in length. Existing surfaces (a mix of asphalt and surface treatment) are in poor condition and require immediate attention. Minor vertical realignment on one small section and asphalt widening to accommodate farm equipment is also proposed. This project will increase the overall road network condition and eliminate frequent and costly maintenance patching.	\$1,088,385.57	\$1,088,385.57	February 1, 2019	December 31, 2019	Yes
11914	Guelph/Eramosa, Township of	Bedford Road Reconstruction	Full urban reconstruction of an existing semi-urban road, involving the extension of municipal water. The road reconstruction improves the vertical alignment of the road. The addition of curbs and storm sewers vastly improves drainage on the road and addresses some problem areas. The reconstruction enables the watermain extension to proceed, providing overall water distribution system looping for increased redundancy and existing fire protection, as well as municipal water to road residents.	\$358,572.51	\$1,271,000.00	September 3, 2018	November 30, 2020	Ongoing
11913	North Grenville, Municipality of	Gravel Rebuild on Pelton Rd (Eager to CR22)	Rebuilding the granular base of Pelton Road from Eager Road to County Road 22.	\$154,181.19	\$154,181.19	June 1, 2019	November 30, 2019	Yes
11912	North Grenville, Municipality of	Gravel Rebuild on Latourell Rd (CR22 to Boundary)	Rebuilding the granular base of Latourell Road from County Road 22 to Boundary Road.	\$171,898.66	\$171,898.66	June 1, 2019	November 30, 2019	Yes

11910	North Grenville, Municipality of	Surface Treatment on Limerick Road (CR20 to Forsythe)	Surface treatment of Limerick Road from County Road 20 to Forsythe Road.	\$165,182.26	\$165,362.74	June 1, 2019	September 30, 2019	Yes
11909	Front of Yonge, Township of	Resurfacing of TedMar Dr & Orchard St	TedMar Dr and Orchard St are being resurfaced with asphalt. This project involves pulverizing the existing surface, adding 50 mm of stone, grading, packing as per OPSD and relaying 50 mm of asphalt as well as tying in the existing driveways. The total road length is 0.7 km. This major restructuring is due to the poor condition of the existing surface and has been identified in our Asset Management Plan.	\$78,451.28	\$78,451.28	September 2, 2019	December 31, 2019	Yes
11908	Admaston/Bromley, Township of	Resurfacing of Pucker Street	Application of a single High Float Surface Treatment on the extended travelled portion of Pucker St starting at Blackburn Road and ending at the Holmes Road intersection (approximately 4 km, 6.5 m wide). This project provides a safe serviceable road that maximizes sustainability.	\$92,780.99	\$92,780.99	July 2, 2019	December 31, 2019	Yes
11907	Admaston/Bromley, Township of	Rehabilitation of Dillabough Road	Rehabilitation of 3.5 km of Dillabough Road by converting end of life surface treatment back to gravel. Conversion involves application of 5,000 tonnes of A Gravel plus calcium to provide a safe and serviceable road that maximizes sustainability in future use.	\$69,162.81	\$69,162.81	July 2, 2019	December 31, 2019	Yes

<b>Local Roads and Bridges</b>								
11894	Southwold, Township of	Resurfacing Gravel Roads at Various Locations	Granular resurfacing of 48 lane-km of low volume, unpaved roads, including sections of Second Line, Scotch Line, Middle River Road, Fourth Line and Southminster Bourne as per the five year rehabilitation cycle improving the surface of the roads. Over the years, the surface gravel has depleted due to vehicular traffic as well as grading, snowplowing and weather activities. Re-gravelling the surface reduces the dust and run off and reduces greenhouse gas emissions due to poor travel conditions.	\$228,374.92	\$230,000.00	May 20, 2019	December 31, 2019	Yes
11893	Douro-Dummer, Township of	Resurfacing White Lake Road and Lonsberry Lane	<p>White Lake Rd was resurfaced from County Rd 6 to the North Limit (2.7 km). Work involved preparing the base, brushing, ditching and double coating with surface treatment.</p> <p>Lonsberry Lane was resurfaced from County Rd 4 to the east limit (0.6 km). Work involved applying a double coat for 100 m at the turnaround and single coating the remainder.</p>	\$121,453.63	\$205,953.00	May 1, 2019	November 30, 2019	Yes
11892	MacDonald, Meredith & Aberdeen Add'l, Township of	Surface Treatment & Road Rebuild of Multiple Roads	Single surface treatment for 800 m of Maple Leaf Road west of 17B, single surface treatment for 850 m on Waterfront Road, single surface treatment for 1,000 m on Driftwood Drive and complete rebuild (double surface treatment) for 1,800 m of Pioneer Road.	\$97,622.00	\$126,786.54	August 12, 2019	December 31, 2019	Yes

<b>Local Roads and Bridges</b>								
11867	Wellington, County of	Wellington Road 18 Reconstruction	The reconstruction of Wellington Road 18 (Woolwich Street West) from east of Wellington Road 7 to Avruskin Street in the Township of Centre Wellington. The work involves the use of hot-mix asphalt, installation of a steel beam guide rail, traffic control signing of the eastbound passing lane, pavement markings and grading.	\$750,000.00	\$2,490,511.99	June 5, 2019	December 31, 2019	Yes
11861	Georgina, Town of	Lake Dr S, Lake Dr E & Sunkist Rd Culvert Replacements	This project involves replacing 14 priority, large diameter culverts. The main objectives of this project are to prevent failure, allow the storm system to continue to function, and improve drainage and flooding issues.	\$3,000.00	\$100,000.00	June 1, 2019	March 31, 2020	Ongoing
11859	Madoc, Township of	Replacement of Hart's Bridge	The Hart's bridge has exceeded its expected life and requires replacement. Replacement of the bridge involves removal of existing roadway, existing structure and corrugated steel pipes. Environmental protection of waterway will be put into place. Larger corrugated steel pipes (multi-plate) will be installed along with fish habitat. New material will be placed as the roadway is reconstructed, returning Hart's road into a two lane configuration. This replacement will greatly improve safe travel.	\$30,000.00	\$47,680.73	August 19, 2019	December 20, 2019	Yes

<b>Local Roads and Bridges</b>								
11858	Lake of Bays, Township of	Resurfacing of Echo Lake Road	The scope of the project will begin with pulverizing the existing high float surface to enable the road base to be stabilized prior to resurfacing. Extensive ditching and brushing is required in some areas along the road to improve sight-lines, allow for proper drainage, and to ensure public safety and longevity of the road. The final stage will involve adding gravel to the base of the road and applying a new high float surface. 1.7 km of road will be resurfaced.	\$140,000.00	\$160,853.91	May 15, 2019	September 20, 2019	Yes
11857	Georgina, Town of	Hedge Road Bank Stabilization	A Slope Stability Assessment has been completed and it has been determined that there is a high risk of losing the stability of the road and, as such, the road itself if the stabilization of the embankment is not addressed. This project includes installing a silt curtain, installing a rock berm, shoreline replanting and placing boulders up the bank.	\$81,793.37	\$1,650,000.00	June 30, 2019	March 31, 2020	Ongoing
11855	West Lincoln, Township of	Rehabilitation of Sixteen Road	Sixteen Rd from Rosedene Rd to Hodgkins Rd and from Port Davidson Rd to Minor Rd has a 2014 PCI rating between 55.8 to 64. These road sections have been patched several times and the stone base is failing in some areas. The 2014 Road Needs Study identified these segments for rehabilitation in 1 to 5 years. Rehabilitation involved pulverizing, restoring the stone base and applying a double surface treatment.	\$211,000.00	\$240,233.98	January 1, 2019	December 31, 2019	Yes

<b>Local Roads and Bridges</b>								
11406	Brampton, City of	Rehabilitation of Main Street South Bridge over Etobicoke Creek	The project involves the removal of superstructure, rehabilitation of existing abutments and piers, installation of new CPCI 900 girders, deck, widened deck sidewalks, parapet walls and permanent lighting systems, and relocation of utilities. Also included are new asphalt pavement, steel beam guide rails, concrete curb and gutter, pavement markings, and signage (or relocation of existing signage), supply/installation/maintenance and removal of all traffic control components and landscaping.	\$652,906.96	\$4,645,000.00	January 1, 2018	December 31, 2019	Yes
11405	Brampton, City of	Road Resurfacing of Multiple Streets	The project involves the rehabilitation of deficient curb, sidewalk, storm sewers, and driveway aprons on five local roads (approximately 52.066 lane-km in length). Work also involves rebuilding and/or adjusting catch basin and maintenance hole frames/lids within the roadway. Pavement is being resurfaced with an 80-90 mm asphalt overlay, with full asphalt removal/expanded asphalt utilized when appropriate. Resurfacing extends the life of the roads for 15-20 years.	\$1,026,785.78	\$12,513,000.00	January 1, 2018	December 31, 2020	Ongoing

<b>Local Roads and Bridges</b>								
11294	Centre Wellington, Township of	Rural Road Reconstruction - Eramosa Garafraxa Townline - WR 29 to Third Line WG	This project involved returning full rural gravel road back to asphalt paving. In November of 2011 this road had been turned back to gravel because of safety concerns. Improved drainage and road profile will provide a safer, more durable, road design.	\$250,000.00	\$250,411.22	January 1, 2019	December 31, 2019	Yes
11293	Centre Wellington, Township of	Full Street Reconstruction - High St - McNab to York	This project is a full urban street reconstruction. Deteriorated sewer, watermain, and road are being proposed to be rebuilt as the project scope. The current road surface has well exceeded its service life, the pavement upgrades will offer a safer more durable road design.	\$140,000.00	\$880,000.00	January 1, 2019	December 31, 2020	Ongoing
11291	Markham, City of	Replacement of Small Culverts	This project involves replacement of 12 small corrugated steel pipe (CSP) (total 2,285M) with High Density polyethylene (HDPE) pipes, which has service life of 50 years.	\$210,451.31	\$349,200.00	May 1, 2019	August 31, 2020	Ongoing
11288	London, City of	Rehabilitation of Wenige Expressway Bridge and Highbury Ave South	Wenige Expressway Bridge spans the south branch of the Thames River and is located on Highbury Ave, approximately 550 m south of Hamilton Road. This bridge is due for a major rehabilitation as it is roughly 53 years of age with heavy traffic loading. Phase 1 of this project includes reconstruction of the roadway, lighting improvements and median barrier for the Wenige Expressway Bridge. This work will be over two construction seasons.	\$0.00	\$6,055,632.00	November 5, 2018	October 31, 2022	Ongoing

<b>Local Roads and Bridges</b>								
9947	Peel, Region of	Pedestrian/Bicycle Bridge Crossing at QEW & Credit River	Design and construction of an active transportation bridge crossing (for pedestrians and cyclists) running north-south and east-west at the QEW and Credit River in partnership with the City of Mississauga. The crossing will become an important part of the active transportation network - along with the Culham Trail running north-south from the QEW, and the east-west Lakeshore-Royal Windsor Trail - traversing the City of Mississauga from Halton Region to the City of Toronto.	\$0.00	\$530,000.00	January 1, 2016	December 31, 2020	Ongoing
9914	Haldimand, County of	Surface Treatment of Gravel Roads	Part of the granular road conversion program. Program is for the conversion of road sections from gravel. The scope involves drainage works, granular base improvements, and surface treatment. Involves Concession 9 Walpole (Haldimand Rd 18 to 53), Jenny Jump Rd (Bird Rd to stub east), Concession 10 Walpole (Sandusk to Cheapside), Abbey Rd, Stoneman Rd (Rd 66 to Rd 54), Concession 9 (Old Talbot Rd to end), Old Lakeshore Rd (New Lakeshore Rd to End). Approximately 87 km in total (2 lane traffic).	\$159,417.38	\$2,336,200.00	May 31, 2017	December 31, 2020	Ongoing
9906	Mississauga, City of	Rehabilitation and Replacement of Various Bridges	Rehabilitation of various city-owned bridges including Kingsbridge Garden Circle over the Cooksville Creek, Dundas Street W over the Credit River, Matheson Boulevard over the Etobicoke Creek, and Eglinton Avenue East over the Etobicoke Creek.	\$412,376.43	\$12,519,645.68	January 1, 2017	December 31, 2020	Ongoing

<b>Local Roads and Bridges</b>								
9905	Mississauga, City of	Road Rehabilitation and Noise Walls at Rathburn Rd E, Tomken Rd, Robert Speck Pkwy, etc.	Rehabilitation of major arterial, collector, and industrial roads to maintain current state of good repair and to implement Traffic Calming Program.	\$181,481.76	\$22,223,549.57	January 1, 2017	December 31, 2020	Ongoing
9899	Greater Sudbury, City of	Bridge Replacement/Rehabilitation in Multiple Locations	The bridge work involves replacement of the Garson Coniston Road Bridge and the Kelly Lake Road Bridge with new concrete structures. Work also involves rehabilitation of the existing concrete decks and foundations on the CNR overpass on Falconbridge Road, MR55-CPR Overhead Bridge (Westbound) and Mikkola Road Bridge.	\$0.00	\$9,115,315.76	January 2, 2017	December 31, 2020	Ongoing
9898	Greater Sudbury, City of	Road Rehabilitation in Multiple Locations	Rehabilitation of 6,915 m of roads, involving improvements to the road structure (pulverizing or milling of the existing asphalt and placement of new asphalt structure), pedestrian facilities, and drainage.	\$0.00	\$8,660,867.22	January 2, 2017	December 31, 2020	Ongoing
9897	Brantford, City of	Active Transportation Infrastructure Improvements (Mohawk St & S.C. Johnson Trails)	These are initiatives to increase active transportation throughout the City. One aspect of the project widens 2 km of Mohawk Street (from Greenwich St to Morrison Road) to provide on-road cycle lanes in both directions. A second component continues the conversion of existing granular trails, tar and chip trails, and access ramps to asphalt on the S. C. Johnson Trail in Waterworks Park to improve accessibility and expand usage.	\$54,507.24	\$455,000.00	January 3, 2017	December 31, 2020	Ongoing

<b>Local Roads and Bridges</b>								
9896	Brantford, City of	Downtown Streetlight Improvement Project	Based on the 2006 Downtown Streetlight Improvements Report, approximately 250 poles in the downtown area are being replaced over a five year period. Funding has been identified to update the 2006 Study, undertake public consultation if required, and design the implementation program for the conversion to LED.	\$0.00	\$50,000.00	January 3, 2017	December 31, 2022	Ongoing
9893	Guelph, City of	Downey Road Active Transportation Improvements	Traffic calming measures for Downey Road from Niska to Teal Drive. In 2017, the City constructed the pedestrian refuge islands and curb bump-outs, and added crosswalk pavement markings as described above. On-street bike lanes were added along Downey Road from Teal Drive to Niska Road as per the Cycling Master Plan. 1 km of bike lane was constructed in each direction.	\$0.00	\$375,000.00	January 1, 2016	June 30, 2020	Ongoing
9891	Whitby, Town of	Reconstruction of Byron St S, Watson St E, and Keith St	Approximately 2.0 lane-km of Byron St S (Arthur to St John), Watson St E (Brock to Dufferin) and Keith St (Brock to Centre) are being reconstructed to provide safe, serviceable road pavements that maximize sustainability in future use. The roads are being reconstructed to an urban cross section which includes curb and gutter, sidewalks, new storm sewers, sanitary sewers and watermains.	\$0.00	\$4,437,182.00	April 1, 2016	March 22, 2019	Yes

<b>Local Roads and Bridges</b>								
9868	Brantford, City of	Reconstruction of St Paul Ave, Shellard Lane, Hayhurst Rd, Sunset Ave, Watson Ave & Frank St	Road portions of the full reconstruction of road, water, sanitary and storm infrastructure on St Paul Ave, Shellard Ln, Hayhurst Road, Sunset Ave, Watson Ave, and Frank St. The need for these projects is driven by the poor condition of watermains, wastewater sewers and stormwater sewers. The total length of all five road sections restored within this project is approximately 3,890 linear m and represents a total of 9.54 lane km.	\$510,917.77	\$14,650,000.00	January 3, 2017	December 31, 2020	Ongoing
9825	Scugog, Township of	Reconstruction of Aldred Drive	The reconstruction of Aldred Drive involves excavation, installation of two subdrains, re-establishment of ditches, and placement of asphalt from Pine Point Road to Edgewood Crescent.	\$245,432.73	\$552,000.00	September 1, 2016	May 29, 2020	Ongoing
9804	West Elgin, Municipality of	Replacement of Gray Line Bridge at 16 Mile Creek	The small one lane bridge which crosses 16 Mile Creek along Gray Line west of Furnival Road was originally constructed in the 1930's and is in need of replacement. Project scope involves replacing the bridge and completing all road work as designed like road construction and removal of trees. This option allows Gray Line surrounding 16 mile creek to be maintained year round and reduce liability associated with a section of roadway that falls below design standard.	\$111,797.47	\$606,762.13	May 16, 2016	December 31, 2019	Yes
9792	Vaughan, City of	Replacement of Pedestrian Bridges in Keffer Marsh and King High Park	Replacement of the existing pedestrian bridges in Keffer Marsh and King High Park and associated landscape works.	\$65,370.25	\$222,130.00	September 1, 2015	December 31, 2021	Ongoing

12728	Clearview, Township of	Station Park Redevelopment	These works are part of a major downtown revitalization for the Stayner community and will include correction of deficient drainage issues, road reconstruction and urbanization, traffic calming in public/pedestrian areas, lighting and landscaping features. New road surfaces and pedestrian trails will be included. Upgrades to certain utilities and municipal services will be required prior to full implementation of surface infrastructure and landscaping.	\$35,822.09	\$400,000.00	June 1, 2019	December 31, 2021	Ongoing
12724	Red Lake, Municipality of	Construction of the Red Lake Market Pavilion	The Market Pavilion was constructed in 2019 as a multi-use facility. It officially opened the 3rd week of December in 2019. It is a covered events and market pavilion that completed the recreational cluster known as Philip T. Vinet Centennial Park. Its construction took place at the existing site of the former Red Lake Outdoor skating rink. It has removable boards and change room/washrooms adjacent to the facility.	\$283,397.90	\$1,082,215.90	May 1, 2019	December 31, 2019	Yes
12621	Quinte West, City of	Waterfront Trail Construction	The project involves the construction of a paved multi-use trail linking the City's existing Riverfront Trail (along the Trent River) to the existing Millennium Trail (a 49 km gravel trail system and former rail bed that stretches from Quinte West to Prince Edward County). The trail includes lighting, areas for group activities and outdoor exercise equipment.	\$125,208.36	\$1,338,603.00	July 10, 2019	January 10, 2020	Ongoing

<b>Recreation</b>								
12260	Kitchener, City of	Splash Pad Replacement in Vanier Park	The splash pad at Vanier Park requires replacement due to its age and condition. The park is one of three providing services to a community at need - a dense population with several multi-residential rental buildings. Residents in this area rely heavily on the three parks for recreational opportunities. Many residents additionally lack access to reliable air conditioning; water play and splash pads provide critical relief in periods of summer heat.	\$0.00	\$300,000.00	June 4, 2019	December 31, 2021	Ongoing
12259	Kitchener, City of	Woodside Park Improvements	Localized artificial turf replacement (non routine full carpet replacement in target areas), construction of an additional exit to Highland Road and improvement to the existing parking lot.	\$6,350.00	\$200,000.00	June 4, 2019	September 7, 2020	Ongoing
12258	Cambridge, City of	Witmer Park Improvement	Improvement to the current park amenities within Witmer Park (100 Arthur Fach Dr.) with guidance from neighbourhood input. Improvements include the construction of a shade pavilion structure and a multi-use court (containing basketball, tennis/pickleball, a games wall and painted court games), while still maintaining a large lawn area for informal play. The intention of the design is to provide a multi-functional and flexible space for the community to use, both formally and informally.	\$5,213.00	\$260,000.00	January 1, 2019	December 31, 2020	Ongoing

<b>Recreation</b>								
11524	Guelph, City of	Renewal and Replacement of Recreation Amenities	Replacement of existing tennis courts at various locations in the city, as well as life-cycle renewal of recreation facilities, involving Centennial Pool and West end Recreation Center. Renovations to four park washroom facilities at Riverside Park Riverview, Margaret Greene Park, Silver Creek Park, and Exhibition Park. Replacement of one washroom/splashpad facility at Hanlon Park, stabilization of Goldie Mill ruins and renovations at Hastings Stadium.	\$1,534,293.00	\$6,663,505.00	January 1, 2018	December 31, 2020	Ongoing
11477	Cambridge, City of	Sports field Improvements	This project addresses the capital improvement needs of existing sports facilities as part of the update to the Master Plan for sports fields and sports field facilities. This involves both washroom and sports field improvements. The focus is to upgrade back stops and perform infield improvements on the two Wayne Taylor Park diamonds and the Studiman Park diamond. This also includes minor improvements at the Churchill Park soccer field washrooms.	\$68,042.00	\$389,700.00	January 1, 2018	December 31, 2020	Ongoing
11476	Cambridge, City of	Playstructure Replacement - Vardon Park	The replacement of a non-compliant CSA Z614-14 playstructure with one that meets accessibility requirements. Playground surfacing is also being upgraded with an accessible engineered wood fiber surfacing to make it more accessible.	\$2,240.00	\$52,089.00	January 1, 2018	December 31, 2019	Yes

<b>Regional and Local Airports</b>								
12922	Peterborough, City of	Airport Water and Sewer Upgrade	A water reservoir was constructed to meet fire regulation. This project involves the engineering and construction of water and sewer upgrades. Funds for additional fire regulation requirements have also been budgeted.	\$0.00	\$15,000,000.00	May 1, 2019	December 31, 2024	Ongoing
12823	Wawa, Municipality of	Airport Outlet Installation	To install outlets at the airport landing pad for aircraft to plug in during winter months and to rehabilitate the surface landing pads for aircraft. The main objective of this project is to increase the capacity of the number of aircraft that the airport can charge in the winter while providing a source of power for heating blocks and a stable surface.	\$27,220.77	\$27,220.77	June 4, 2019	October 25, 2019	Yes
12345	Head, Clara & Maria, United Townships of	Helipad Infrastructure Enhancement	Brush and trees were removed from the flight path and the landing lights were secured into the landing pad with rods and concrete in order to improve our local airport facility.	\$4,070.17	\$4,520.00	March 1, 2019	December 31, 2019	Yes
12282	North Bay, City of	North Bay Airport Runway 18-36 Rehabilitation	The cross wind runway (runway 18/36) at the North Bay Jack Garland Airport had reached the end of its useful life and required significant rehabilitation. Work on the 4,492 ft × 150 ft area of this runway included installation of upgraded approach lighting to meet current safety standards, upgrade of the runway's drainage, rehabilitation of the hard surface, and remediation of operational safety surfaces.	\$2,154,015.76	\$5,562,670.87	June 15, 2015	November 13, 2019	Yes

<b>Solid Waste</b>								
12837	Cornwall, City of	Landfill Leachate - Gas Collection	The landfill gas collection system collects gas under a vacuum and conveys it to the landfill gas flaring facility. The system is being relocated, expanded and upgraded to capture greenhouse gas emissions and odors caused by the decomposition of waste. This system expansion includes the construction and implementation of additional extraction wells to capture gas emissions and odors from a recently capped area [quadrant].	\$279,204.45	\$279,206.00	May 1, 2019	December 31, 2020	Ongoing
12790	London, City of	Landfill Gas Collection	To design and construct the landfill gas collection system as new cells are constructed. Landfill gas collection is a key element of the W12A Odour Reduction Strategy. It is a regulatory requirement to collect and manage landfill gas generated at the site.	\$75,615.37	\$1,094,933.00	November 1, 2018	December 31, 2021	Ongoing
12569	Waterloo, Region of	Waterloo Landfill Pumping Station No. 3 (PS3) Replacement	The work includes the replacement of all equipment in the existing Pump Station No. 3 (PS3) and demolition of all existing PS3 structures, new electrical system, HVAC system and instrumentation and control panels, installation of PS3 valve chamber, inlet chamber, above-grade control building and new influent leachate piping connections to existing pump stations, replacement of two existing air release chambers, and testing and commissioning of all new equipment and controls.	\$265,057.75	\$4,021,400.00	January 1, 2019	December 31, 2020	Ongoing

**Federal Gas Tax Fund

2019 Project Details**

<i>Project ID</i>	<i>Ultimate Recipient</i>	<i>Project Title</i>	<i>Project Description</i>	<i>Funds (GTF) Spent</i>	<i>Total Project Cost</i>	<i>Start Date</i>	<i>Financing End Date</i>	<i>Completed</i>
<b>Solid Waste</b>								
12493	Hamilton, City of	Central Composting Lifecycling Replacement	Replacement of the Central Composting Facility/Equipment for the processing of source separated organics including the replacement of the Supervisory Control and Data Acquisition System	\$261,619.37	\$740,000.00	January 1, 2019	December 31, 2028	Ongoing
12425	Peel, Region of	Upgrades to the Material Recovery Facility	Upgrades to the Material Recovery Facility will result in advancements to recovery technologies in response to increasingly rigorous quality standards from industries utilizing post-consumer recyclable materials. The upgrades include: the installation of 10 new optical sorters, a new OCC screen, new conveyors and a new ballistic separator. This project will improve flexibility in response to changing recyclable material composition.	\$16,443,478.38	\$23,929,561.00	January 1, 2019	December 31, 2020	Ongoing
12050	Addington Highlands, Township of	Kaladar Waste Disposal Site Remediation	As the Kaladar Landfill has reached its capacity, it is necessary to close the landfill and turn the site in to a transfer station. This project includes the decommissioning of the existing landfill site at 10618 Hwy #41 in accordance with Ontario Regulation 232/98. The work includes the supply and placement of clay over the entire site and general grading.	\$164,150.00	\$552,484.11	August 20, 2019	December 31, 2019	Yes

<b>Solid Waste</b>								
11943	O'Connor, Township of	Disposal Site Study	The Township of O'Connor is obtaining a Landfill Site Study to report information on volume, capacity, mapping, annual usage of the landfill site and the remaining lifespan of the site, along with reports outlining future closure and post-closure costs.	\$4,742.02	\$10,075.00	June 10, 2019	December 31, 2020	Ongoing
11521	Guelph, City of	Waste Management Diversion and Methane Collection Improvements	This project involves the addition of a second public drop off scale to improve the efficiency of the facility, including the segregation of loads and the reduction of materials transferred to landfill. Work includes equipment replacement and upgrades within the sorting facility to improve efficiency, capacity, and capture rate of recyclable materials. The project also involves additional investment in the upkeep of the methane capture system at the historical landfill site.	\$215,055.57	\$10,690,500.00	January 1, 2018	December 31, 2020	Ongoing
11427	Hearst, Town of	Purchase of a Waste and Recycling Collection Vehicle	With the implementation of a new curbside recycling program, a new split-bin collection vehicle was purchased to accommodate the combined collection of waste and recycling.	\$198,537.80	\$428,831.63	March 19, 2018	December 31, 2019	Yes
11413	London, City of	Development of a Landfill Gas Power Plant	Development of a 500 kilowatt landfill gas power plant at the W12A landfill with connection to the local power distribution system. Project is in the early stages. A consultant has been hired to undertake an air, odour and noise study.	\$0.00	\$4,000,000.00	May 23, 2018	September 30, 2020	Ongoing

**Federal Gas Tax Fund

<b>Solid Waste</b>								
11412	London, City of	Construction of Waste Disposal Cell 9 and Extension of On-Site Access Road to W12A Landfill	Project is for the construction of waste disposal cell 9 and extension of the on-site access road at the W12A Landfill. The approximately 6.2 hectare construction of Cell 9 (including the landfill base and leachate collection system) creates approximately 1,100,000 cubic metres of usable disposal capacity, which accommodates approximately 3.5 years of waste disposal operation at current landfilling rates.	\$608,742.77	\$5,146,236.00	June 4, 2018	April 30, 2020	Ongoing
11290	Markham, City of	Methane Gas Collector Upgrade	The upgrade to the Northern Header at German Mills Meadow and Natural Habitat will replace the pipes eliminating leakage in the system and mitigate the observed deficiencies in the landfill gas collection system. This improves the efficiency of the gas collection system ensuring that the methane produced by the waste in the landfill is captured and diverted from migrating onto private properties. The upgrade will extend the lifecycle of the system for another 25 years.	\$456,724.35	\$502,500.00	April 1, 2019	June 1, 2020	Ongoing

<b>Solid Waste</b>								
11105	Head, Clara & Maria, United Townships of	Bissett Creek Landfill Expansion	There are only two active landfills in the Township and based on average deposition rates, it's estimated that both will close in 2030. To address the long-term needs of the Township beyond this period, a Consultant has been hired to give us advice on the expansion of our existing Bissett Creek waste disposal site and services to meet future needs. Based on their advice and MoE approval, expansion work is being undertaken.	\$0.00	\$39,540.59	January 1, 2017	December 31, 2023	Ongoing
10901	Richmond Hill, City of	Installation of Recycling and Waste Containers at Parks, Mailboxes & Downtown	Following successful pilot projects, Richmond Hill is installing recycling and waste containers in parks, at mailboxes, and in the downtown to increase community waste diversion.	\$186,873.00	\$790,955.00	January 1, 2017	December 31, 2019	Yes
10827	London, City of	Installation/Replacement of Waste Diversion Infrastructure	Install/replace waste diversion infrastructure works at EnviroDepots, Household Special Waste Depots, Material Recovery Facility including surface water control structures, fencing, retaining walls, etc. Works are required to stay in compliance with Environment Compliance Approval, meet regulatory requirements, and/or ensure residents have access to cost-effective diversion facilities. In 2017, this waste diversion infrastructure assisted with the diversion of approximately 72,000 tonnes.	\$3,343.47	\$206,800.00	March 13, 2017	August 31, 2020	Ongoing

<b>Solid Waste</b>								
9563	Smooth Rock Falls, Town of	Landfill Expansion	The project involves a landfill expansion project to extend the life of the town's landfill site. With the new recycling program introduced in October 2016 and when the expansion project is completed, the landfill site closure will be extended by 40 years plus. The current estimated closure for the site is 2 years. Also included is a review and completion of the 5 year monitoring report that is required by the Ministry of the Environment.	\$19,451.64	\$155,000.00	July 8, 2016	December 31, 2020	Ongoing
9398	Atikokan, Town of	New Landfill	Creating a new landfill to replace the existing end of life landfill.	\$175,000.00	\$900,000.00	August 1, 2017	December 31, 2019	Yes
8759	London, City of	Closed Landfill Management	Cell capping/restoration, ground water monitoring, well installation, leachate and methane gas control measures at closed landfills. This program protects people and property, while complying with the Ministry of Environment and Climate Change criteria.	\$0.00	\$218,872.00	September 9, 2015	December 6, 2019	Yes

<b>Solid Waste</b>								
8425	White River, Township of	White River Waste Disposal Expansion	An expansion to the White River municipal landfill site has been approved by the MECP and the following works will be carried out to develop the expansion. Construct onsite surface water management features including grading, drainage swales and detention pond; close the currently active portion of the site by grading, covering and seeding; construct internal access roads with perimeter fencing; and, expand the groundwater monitoring network by constructing additional wells.	\$34,781.22	\$300,000.00	January 1, 2014	December 31, 2019	Yes
8295	London, City of	Replacement of Ancillary Infrastructure of W12A Landfill	Install and replace the ancillary infrastructure (e.g., onsite access roads, leachate pumping stations, stormwater management ponds, site perimeter fencing, etc.) of the W12A Landfill Site. Installations and replacements are required to maintain compliance with Environmental Compliance Approval for the Site. Cell #9 is under warranty period.	\$197,094.99	\$1,275,471.00	May 1, 2015	July 31, 2020	Ongoing
6329	Assiginack, Township of	Assiginack Landfill Expansion on Sucker Lake Road	Existing landfill is reaching threshold of capacity. It requires an expanded land-filling footprint. All waste diversion efforts, including recycling and composting are in place but an expansion of the current site is favourable to locating a new site.	\$18,896.00	\$450,000.00	January 2, 2012	December 31, 2020	Ongoing

<b>Solid Waste</b>								
5212	Durham, Regional Municipality of	Energy from Waste Project - Durham/York	The undertaking, as defined by the EA, is a Thermal Treatment Facility capable of processing post-diversion residual waste and recovering materials and energy of sufficient quality and quantity to export to the marketplace (recovered metals, electricity and eventually the possibility of district heating and cooling), with a maximum current capacity of 140,000 tonnes per year. The facility will be designed, built, and operated at 1835 Energy Drive, Clarington, Ontario L1E 2R2.	\$12,169,375.18	\$223,005,094.97	August 17, 2011	December 31, 2020	Ongoing
574	London, City of	Construction of Material Recovery Facility	Construction of a materials recovery facility that will enable the City to expand its recycling program and meet its goal of a 60% diversion rate. The current facility is privately owned and at capacity. This facility will process approximately 75,000 tonnes per year of Blue Box recyclables and will serve the City and surrounding areas. Warranty upgrades to fire suppressant system is still outstanding.	\$167,355.71	\$22,459,660.00	May 9, 2006	June 30, 2020	Ongoing

12207	Mississauga, City of	Sign Installation - Malton BIA - Mainstreet Revitalization	This project involves supplying and installing a new MALTON sign as part of the Main Street Revitalization Initiative. The initiative will help support small businesses through the beautification of main streets in the Malton Business Improvement Area (BIA) district.	\$275,000.00	\$453,590.00	September 30, 2019	March 31, 2021	Ongoing
12078	Whitewater Region, Township of	Paving of Westmeath Lookout Entrance & Parking Area	Pave the parking area and landing area of Westmeath Lookout. The parking and landing area of this scenic lookout is dilapidated and very uninviting for visitors. This project allows for visitors to safely access the municipal lookout and park their vehicles (cars, motorcycles and cycles). It is anticipated that this improvement will increase traffic flow to this tourism treasure in the Township of Whitewater Region.	\$21,243.08	\$21,243.08	September 3, 2019	October 9, 2019	Yes
11774	Red Rock, Township of	Red Rock Marina Revitalization	Docks, lighting dock surfaces, slip, dock flotation and water transportation entrance will be upgraded at the Red Rock Marina. Scope of the project includes dock surface board replacement with composite skid free planking, replacement of slip and dock floats, and replacement of lighting infrastructure on the marina break wall.	\$1,360.00	\$90,200.00	December 31, 2019	September 30, 2021	Ongoing

11368	St. Catharines, City of	Hartzel Rd Storm Sewer Replacement	Replacement of existing storm sewers with identified deficiencies to reduce surface flooding on Hartzel Rd from approximately 100 m south of Queenston Street to approximately 100 m north of Lincoln Avenue.	\$0.00	\$517,935.73	June 1, 2017	July 3, 2028	Ongoing
11367	St. Catharines, City of	Storm Sewer Construction on Rodger Street and Sharon Street	Installation of storm sewers to alleviate surface flooding on Sharon Street and Rodger Street.	\$0.00	\$817,000.00	November 18, 2016	July 4, 2027	Ongoing
11337	Niagara, Region of	Dain City Pump Station Forcemain Replacement	Sections of the Dain City Pump Station (PS) forcemain have failed due to significant corrosion caused by Hydrogen Sulphide (H2S) attack and are in need of immediate replacement. The current forcemain is 3.2 km long and is made of Asbestos Cement (AC). This will be replaced with a new 300mm PVC forcemain that is not affected by H2S. There will also be a new section of 675mm diameter PVC for the gravity connection.	\$1,281,787.52	\$5,775,000.00	March 8, 2019	March 8, 2022	Ongoing
11292	Markham, City of	Cleaning Sediment from Two Stormwater Management Ponds	This project includes sediment cleaning and rehabilitation of two stormwater management (SWM) ponds. Sediment cleaning maintains the downstream water quality, preserves the fish habitat and contributes to a sustainable healthy ecosystem that is in line with City's Greenprint initiative. It also helps in retaining the original design functionality of the pond.	\$41,691.96	\$969,000.00	September 1, 2019	December 31, 2021	Ongoing

<b>Wastewater</b>								
6969	Barrie, City of	Lakeshore Drive capacity improvements of Dyment's Creek and Bunker's Creek	This project improves the flow capacity, fish habitat, and water quality of Bunkers Creek & Dyment's Creek. The flow capacity is improved to convey the peak flow generated by a 1 in 100 year storm event. The 3-culvert system under the old Lakeshore Dr. will be replaced with an open channel to improve fish habitat by removing the "long dark tunnel" and replacing with the "daylighted" open channel.	\$124,812.08	\$7,820,631.00	November 1, 2011	December 31, 2020	Ongoing
6860	Ajax, Town of	Stormwater Retrofit - Rain Gardens & Waterfront Improvements	Design and construction of Roadside Curb Gardens on Lake Driveway from Harwood Ave to Finley Ave based on the preferred solutions for the Master Plan Environmental Assessment (EA) for Stormwater Quality Retrofit Study for southwest quadrant of the Town. Project also includes restoration of wetlands near the waterfront (Paradise Park) which will reduce stormwater runoff and improve water quality through water filtration/ infiltration systems.	\$424,135.43	\$999,907.00	October 1, 2013	December 31, 2020	Ongoing
6351	Smiths Falls, Town of	Replacement of Storm Sewer on Old Mill Road	Town of Smiths Falls needs to replace 60m of existing 750 mm storm sewer due to age and condition. This will help ensure storm water is managed in the area of the Rideau River.	\$337,328.39	\$398,264.99	March 11, 2013	July 31, 2019	Yes
